The teachers, as well as the students at Peabody Magnet school, are very special people. Magnet teachers must have those qualities which set them above ordinary people. They are intelligent in order to teach magnet students, fair and unbiased, and responsive to student needs. They are dedicated, energetic leaders who accept the heavy responsibility of molding the minds and emotions of a generation of young people. This responsibility is accepted willingly and with a caring attitude by the true magnet teachers.

The job of teaching makes many heavy demands on the teacher. The teacher must make important decisions about the result he or she wants to get from the classes taught. They must not only set priorities on the information to be taught, but must also decide how the information is to be taught, and how the students should prove their newly gained knowledge.

If you can't say anything nice, Then . . .

This class is so much fun.

I just can't figure it out!

She finally got caught. Now, let's see her get out of this one!

Often, the most valuable information learned in a given class may involve such things as well disciplined study habits, respect for others, or responsibility for materials and assignments.

Years later, after the students have left academic pursuits they may not remember much of the textbook information the teachers taught, but the values and attitudes will remain forever.

# THE ESAA PROGRAM

## ESAA Aides

Pam Anders, Cletis Hughes, Rena Nelson, Nelda Jackson

The purpose of the Emergency School Aid Act (ESAA) is to assist students who are having difficulties in certain areas of their school work. Students may receive assistance in a group through ESAA aides, or they may receive individual help through the peer tutoring program. It is estimated that the ESAA program reaches 100-120 students, with tremendous results being reported by aides and teachers.

## Editor's Message

One must always keep his eyes on the road ahead; yet, many times we must look back to see how far we have come to understand where we are going. We, the faculty, administration and students, have indeed come a long way. In 1976, the first magnet class began with 46 students; we have grown to an entire magnet school, offering courses that no other school in the parish can and educating over 1000 students. We are fortunate that we have at the magnet school teachers who rank among the best in the state. Our teachers enrich our minds and our spirits. These things, along with the pride, make us say the things we say so that tomorrow will be a better day. In 1979, as the magnet school, we have quite a few reasons to be filled with spirit and pride. We, the staff, hope that within the covers of this 1979 Warhorse, you will recapture some of the moments that were so special to all of you.

Francine Williams, Editor

Head Advisor: Ms. Carol Brown

Advisors: Ms. N. Mann, Mr. Tullier, Ms. B. Tanburg.

The Road Not Taken

Two roads diverged in a yellow wood
And sorry I could not travel both
And be one traveler, long I stood
And looked down one as far as I could
To where it bent in the undergrowth:

Then took the other, as just as fair
And having perhaps the better claim
Because it was grassy and wanted wear
Though as for that the passing there
Had worn them really about the same.

And both that morning equally lay
In leaves no step had trodden black.
Oh, I kept the first for another day:
Yet knowing how way leads on to way,
I doubted if I should ever come back

I shall be telling this with a sigh
Somewhere ages and ages hence:
Two roads diverged in a woods and
I took the road less traveled by.
And that has made all the difference.

Robert Frost

Now how did she say you do this?

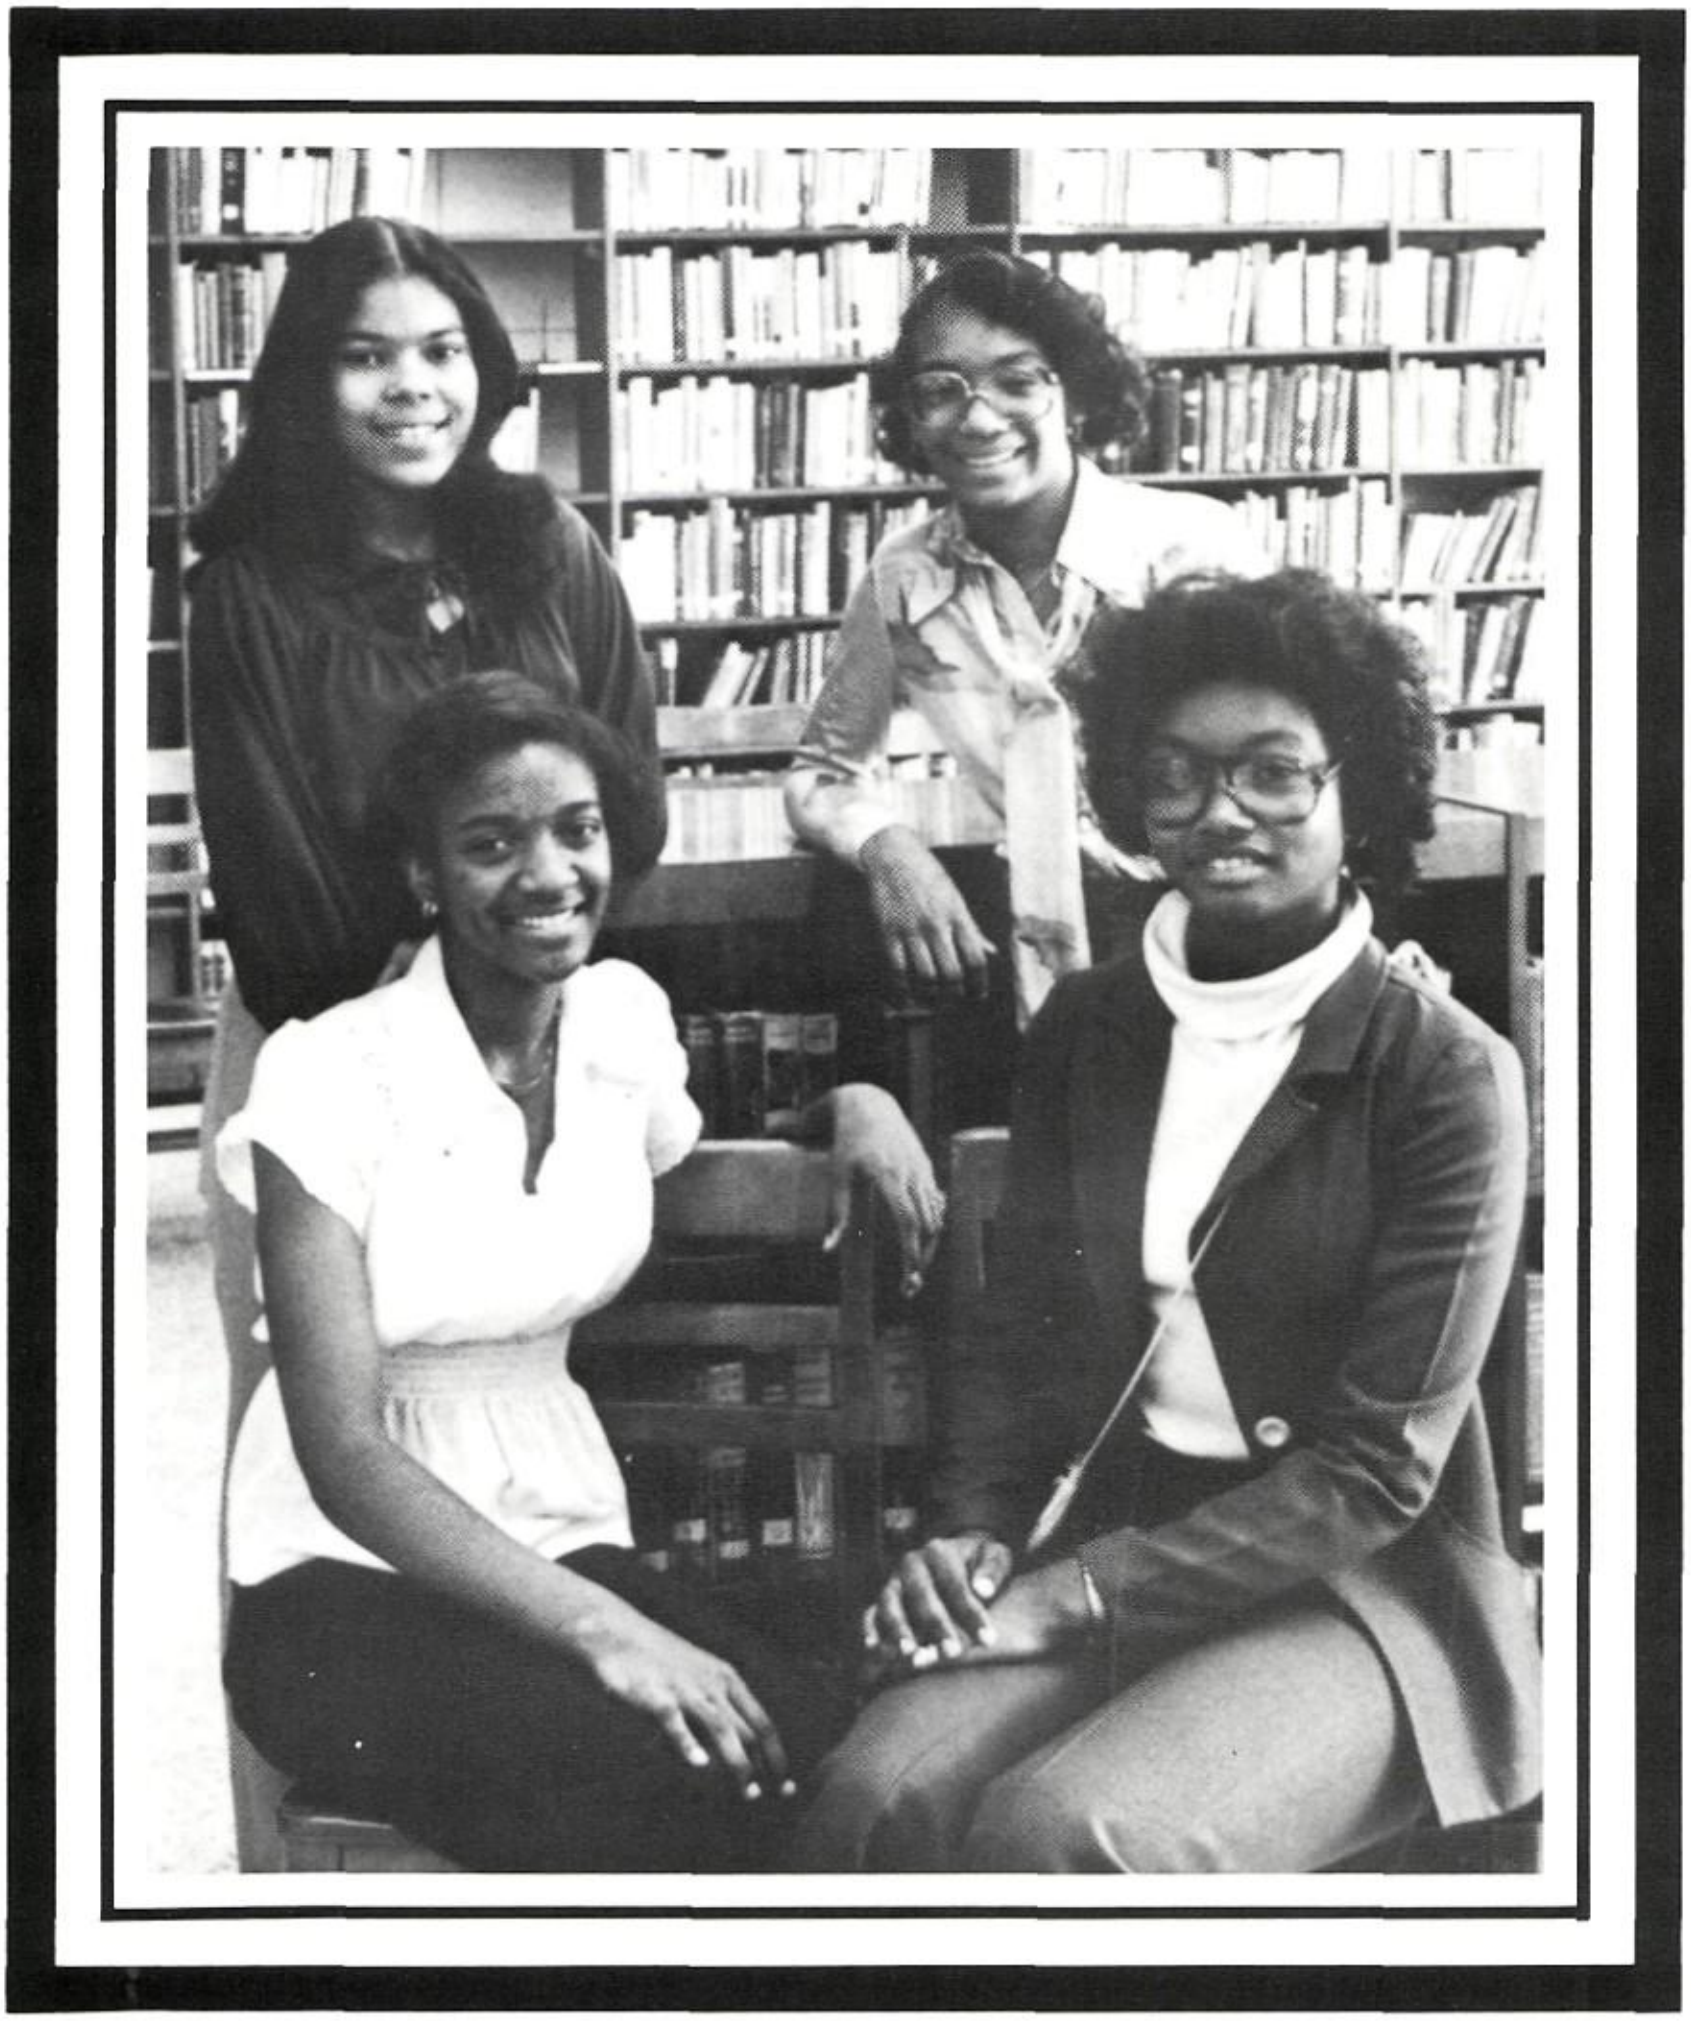
FRESHMEN

Freshmen demonstrate their sense of humor.

# Learning Their Way Around

Someone either told a very funny joke or a very very weak one.

# FRESHMAN OFFICERS



This is where it all begins . . .

# ACTION-FILLED DAYS

And this is only first hour!

I hope my hairs looks OK.

Take your hat off before you come in the building!

# OF SPIRIT AND PRIDE

OK Marilyn, this is how . . . Marilyn, Marilyn!

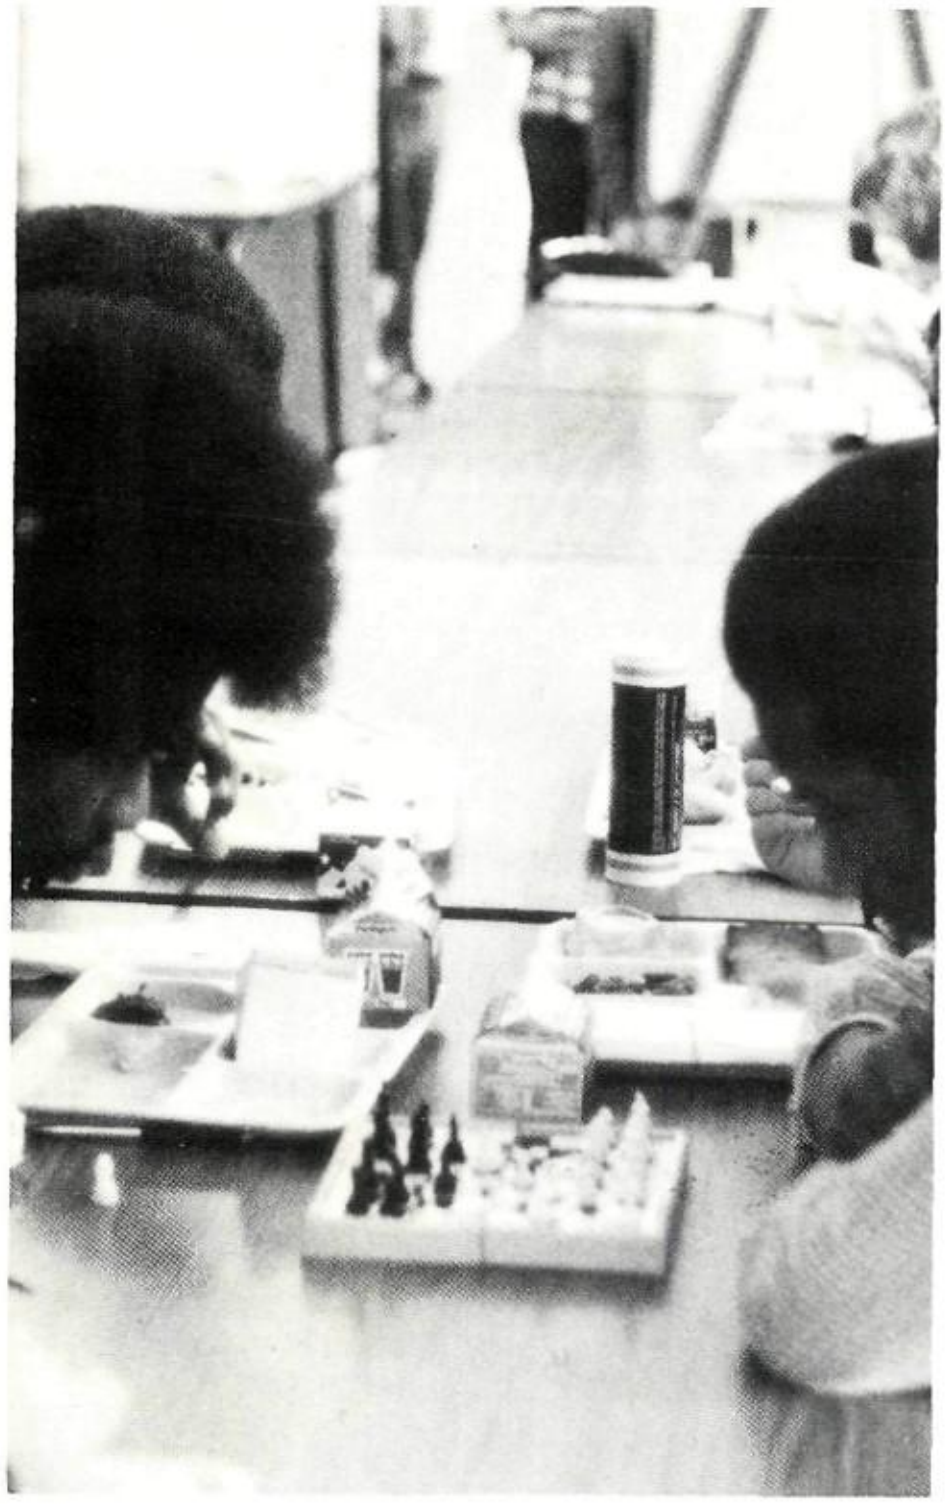
Look guys, I've really gotta be going . . .

And then the three little bears . . .

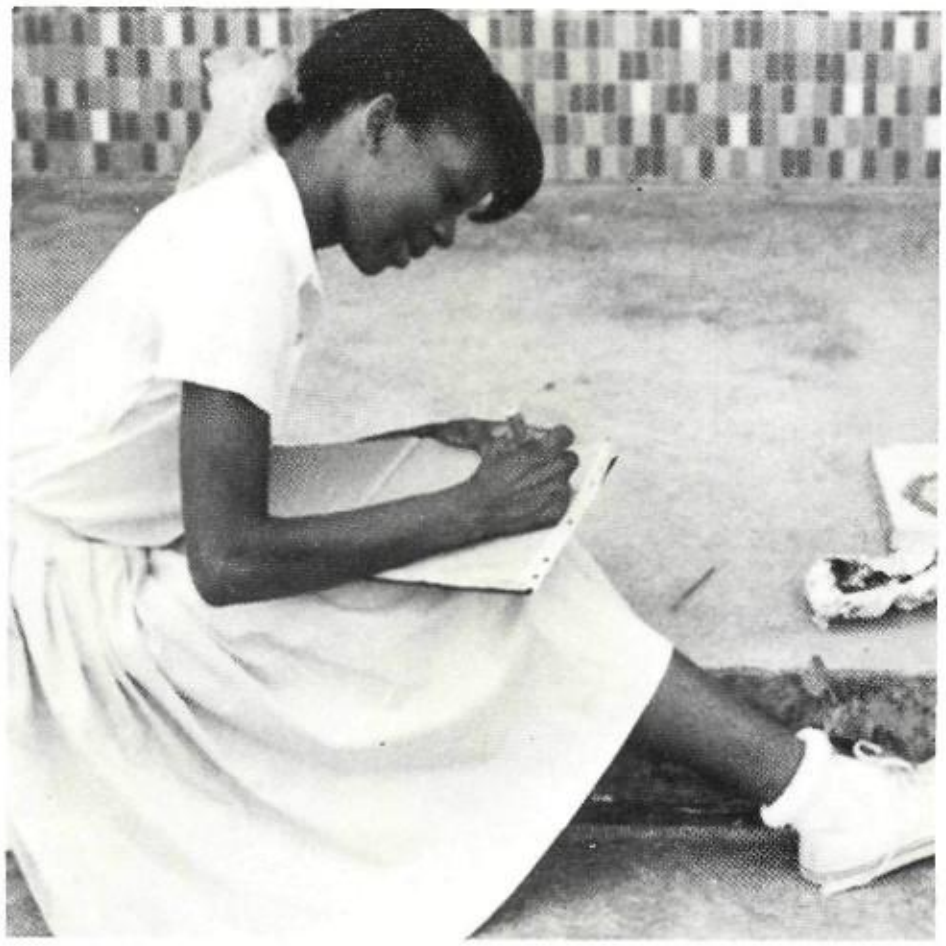
**My** detergent got it clean!

You say you've had driver's ed?

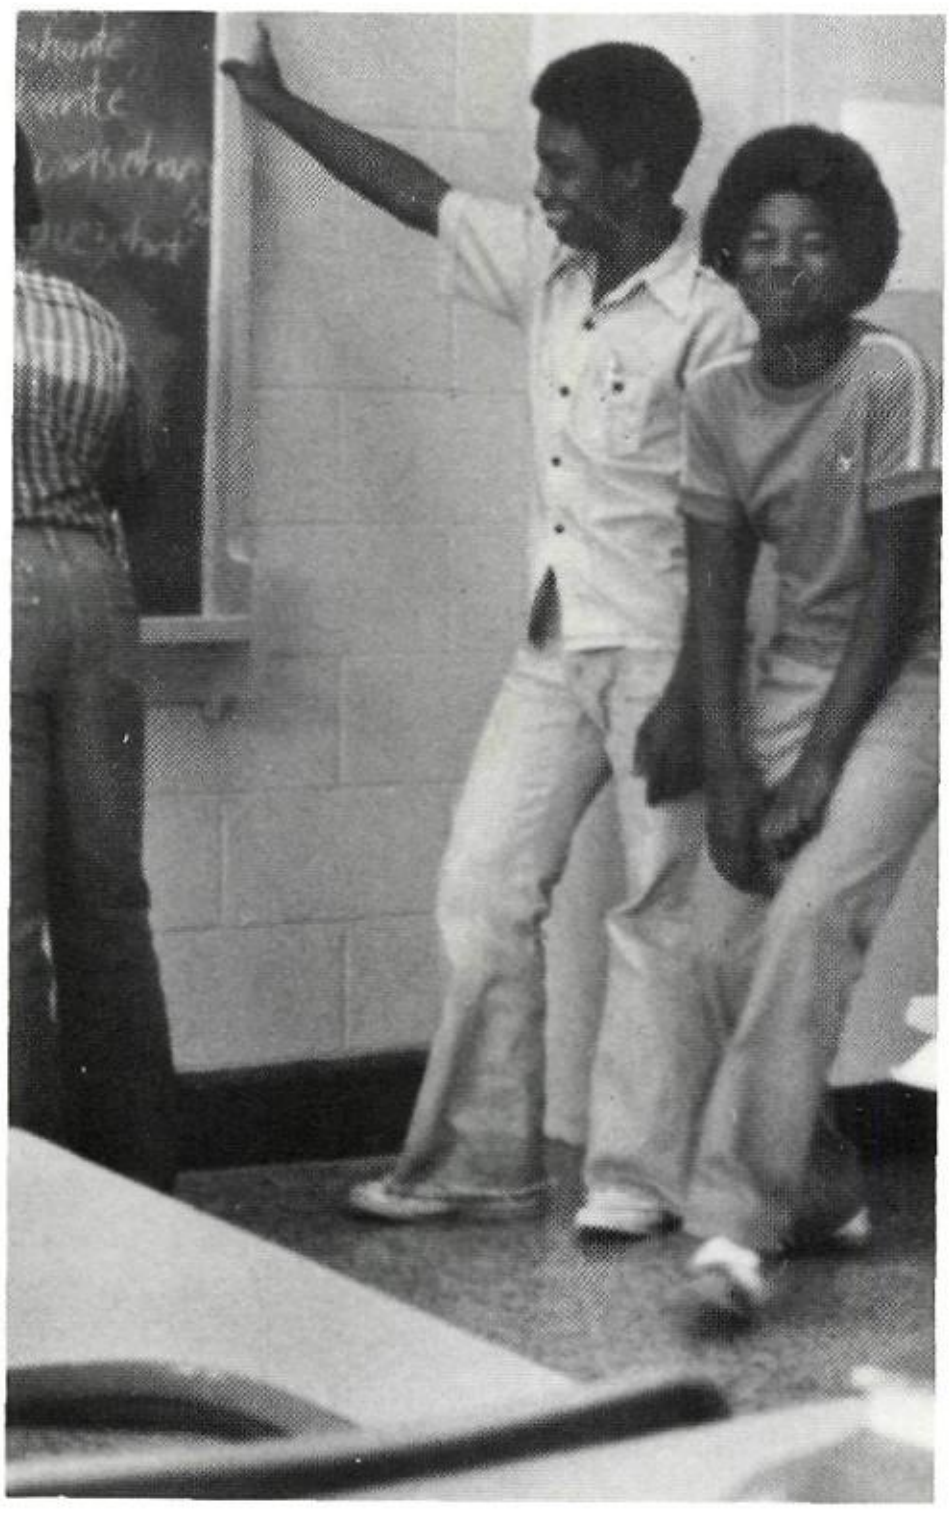
Everybody do the funky chicken!



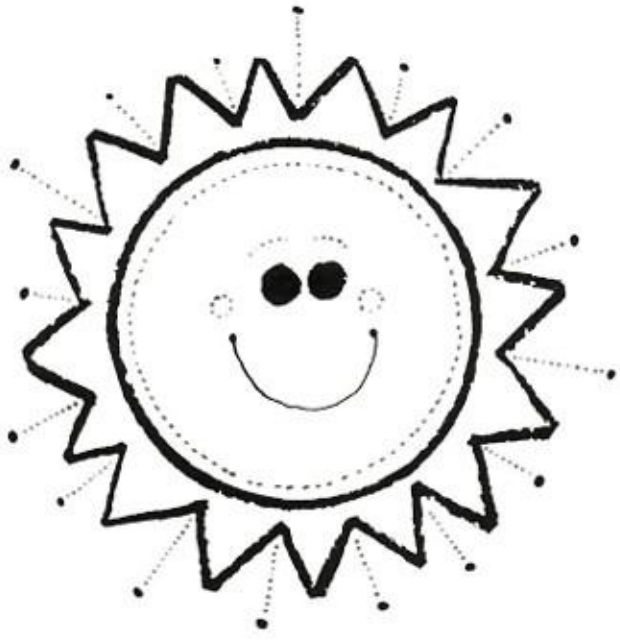
Red beans, cornbread, and . . . chess?



I've heard of nostalgia, but . . .

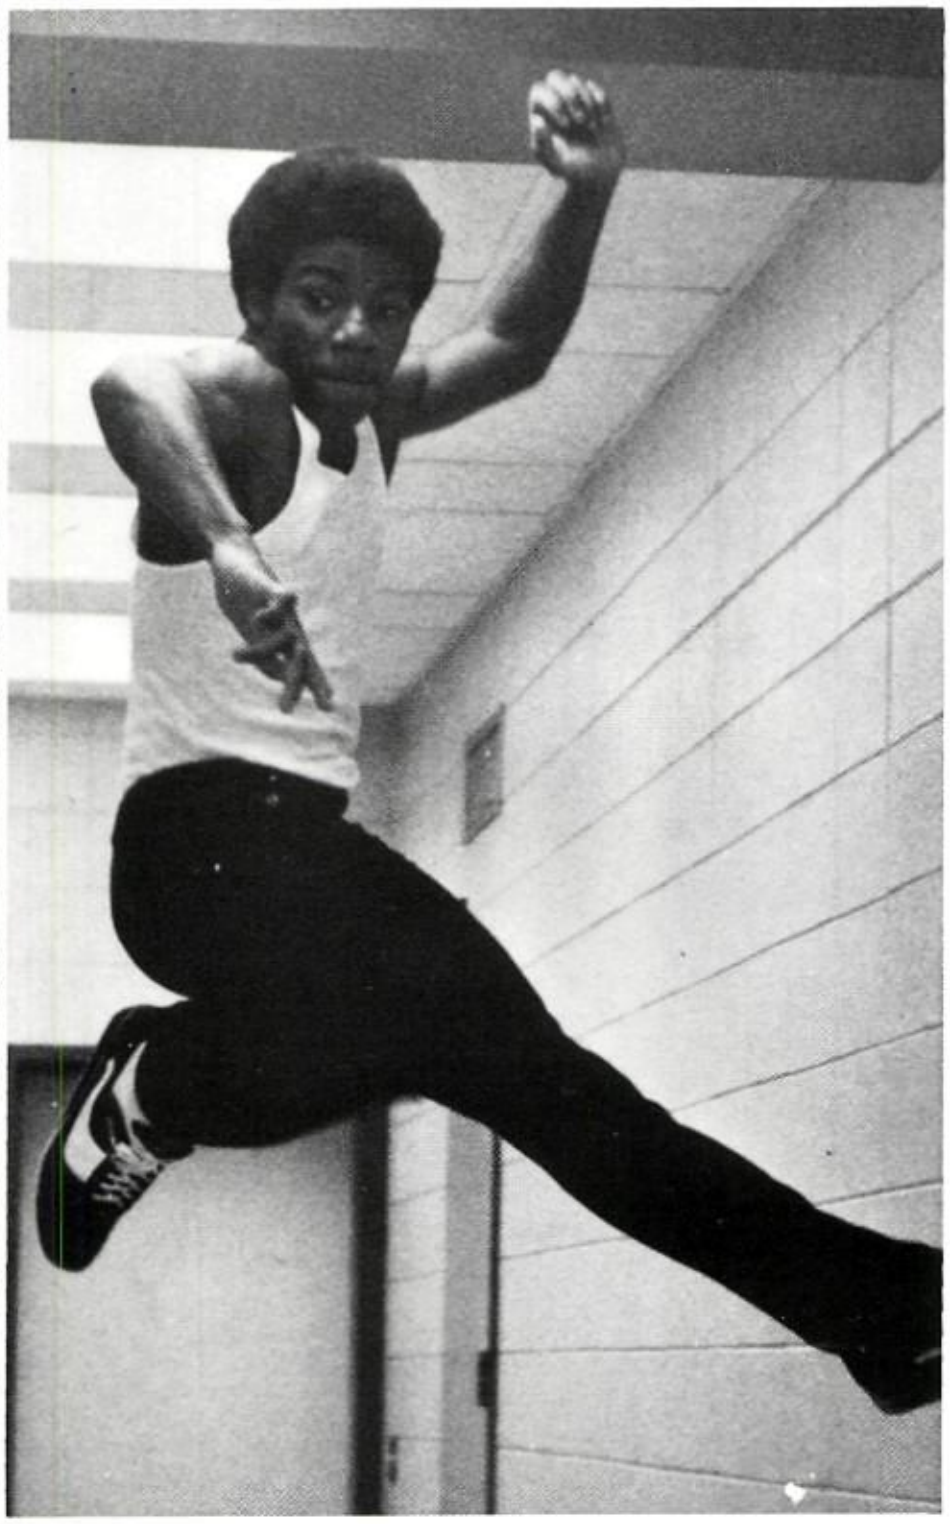


He misspelled his **name!**

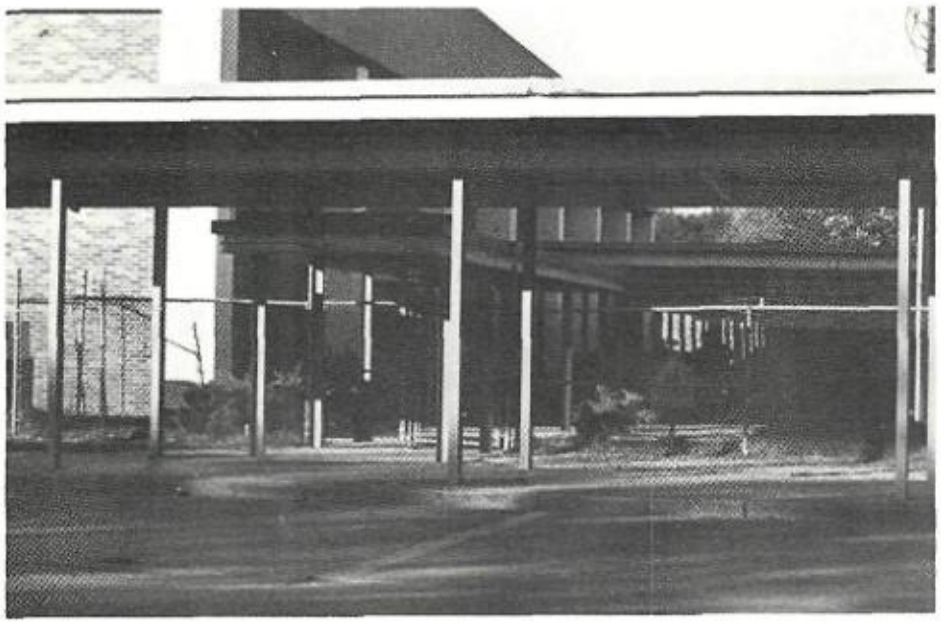


Three strikes, you're out!

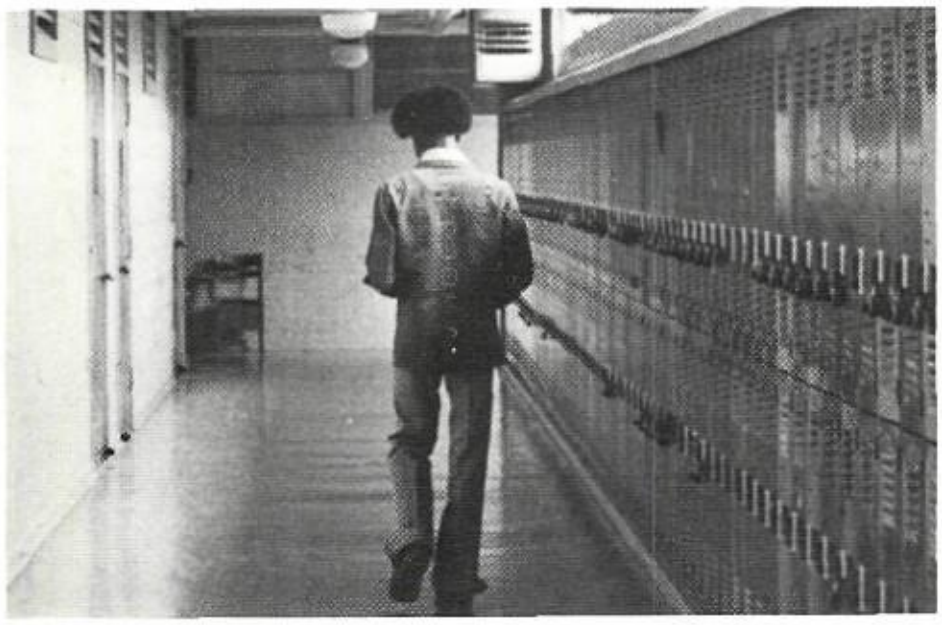
Don't worry, it's only a 50 foot drop!



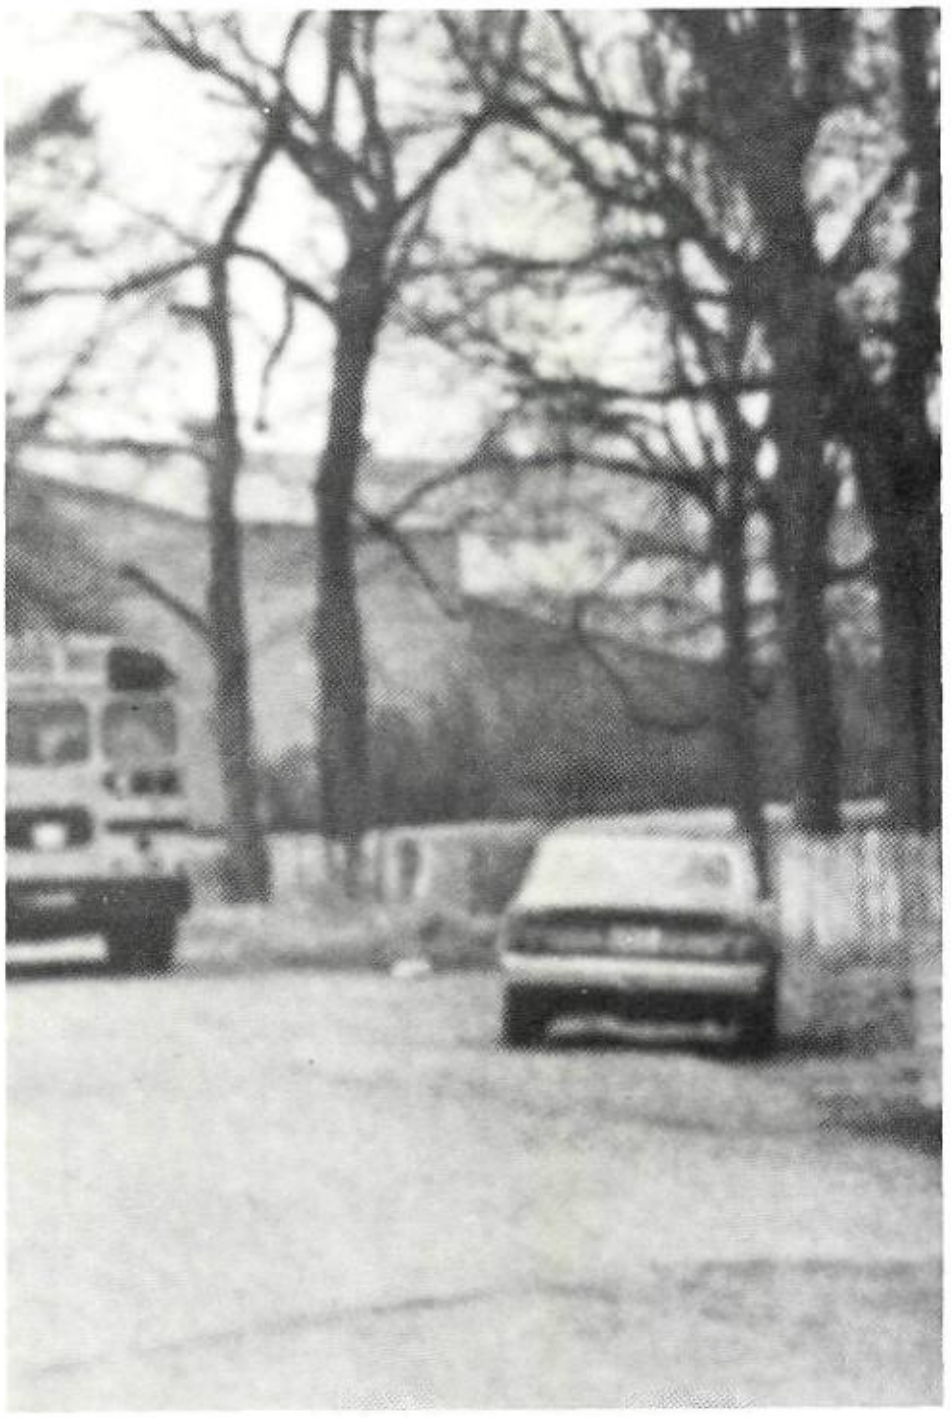
No, it isn't the flying nun.



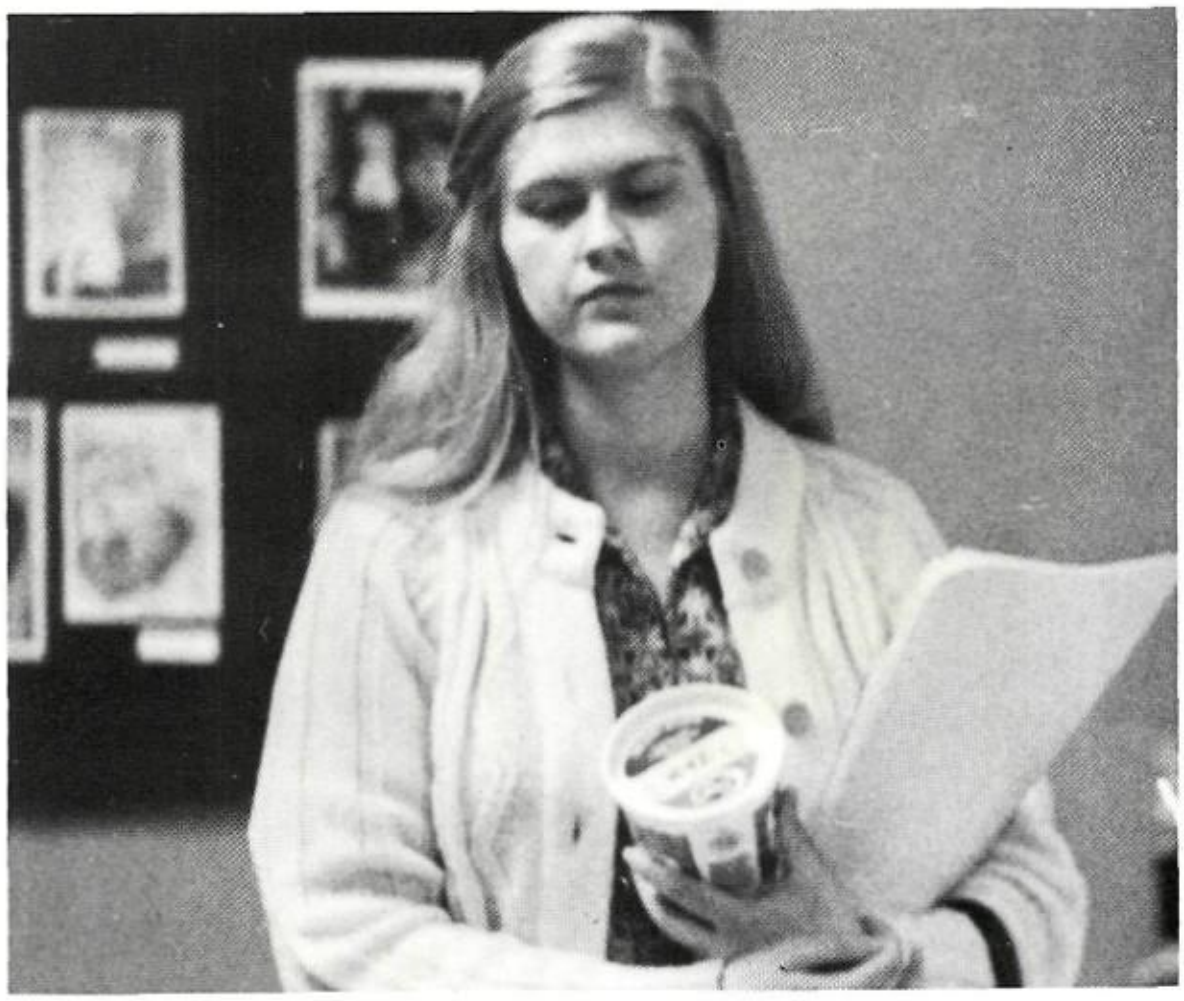
Finally, some peace and quiet.



This isn't Saturday, is it?



The end of a long day.



I'm asleep on my feet!

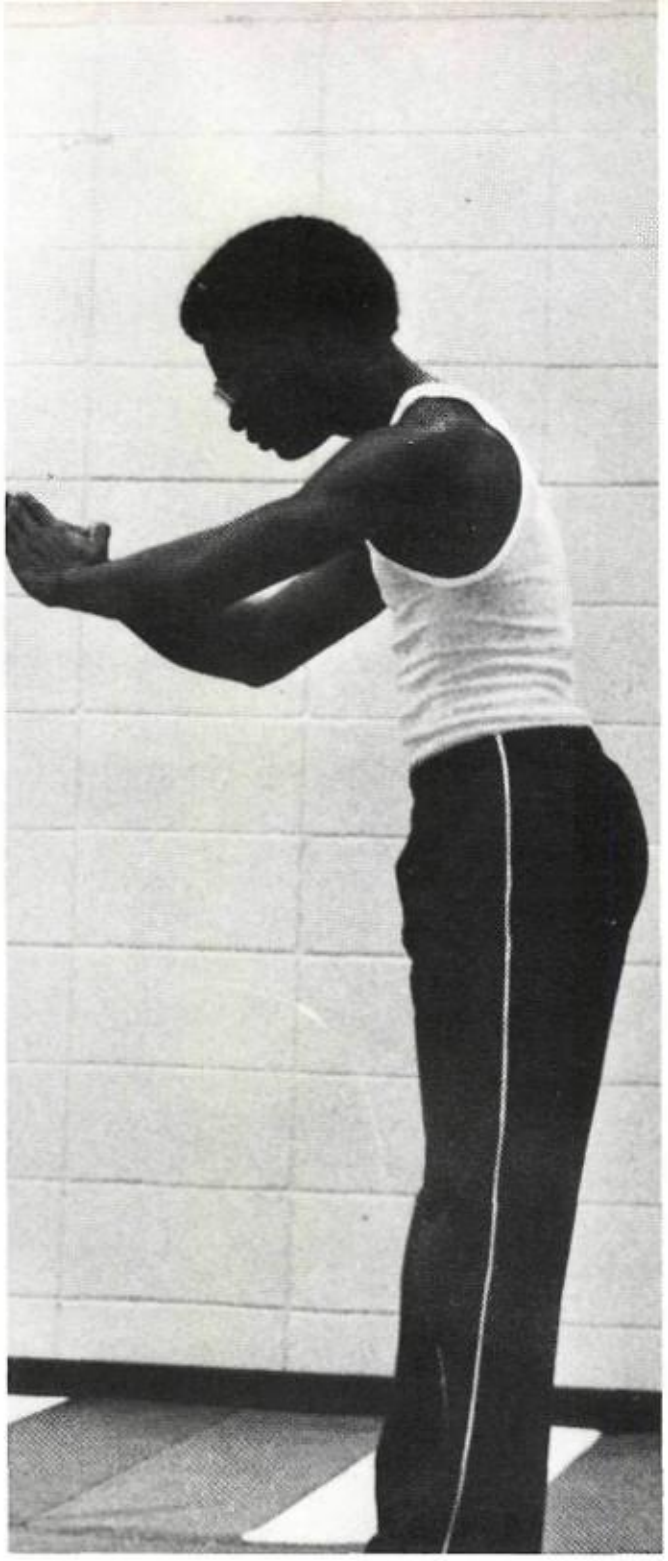
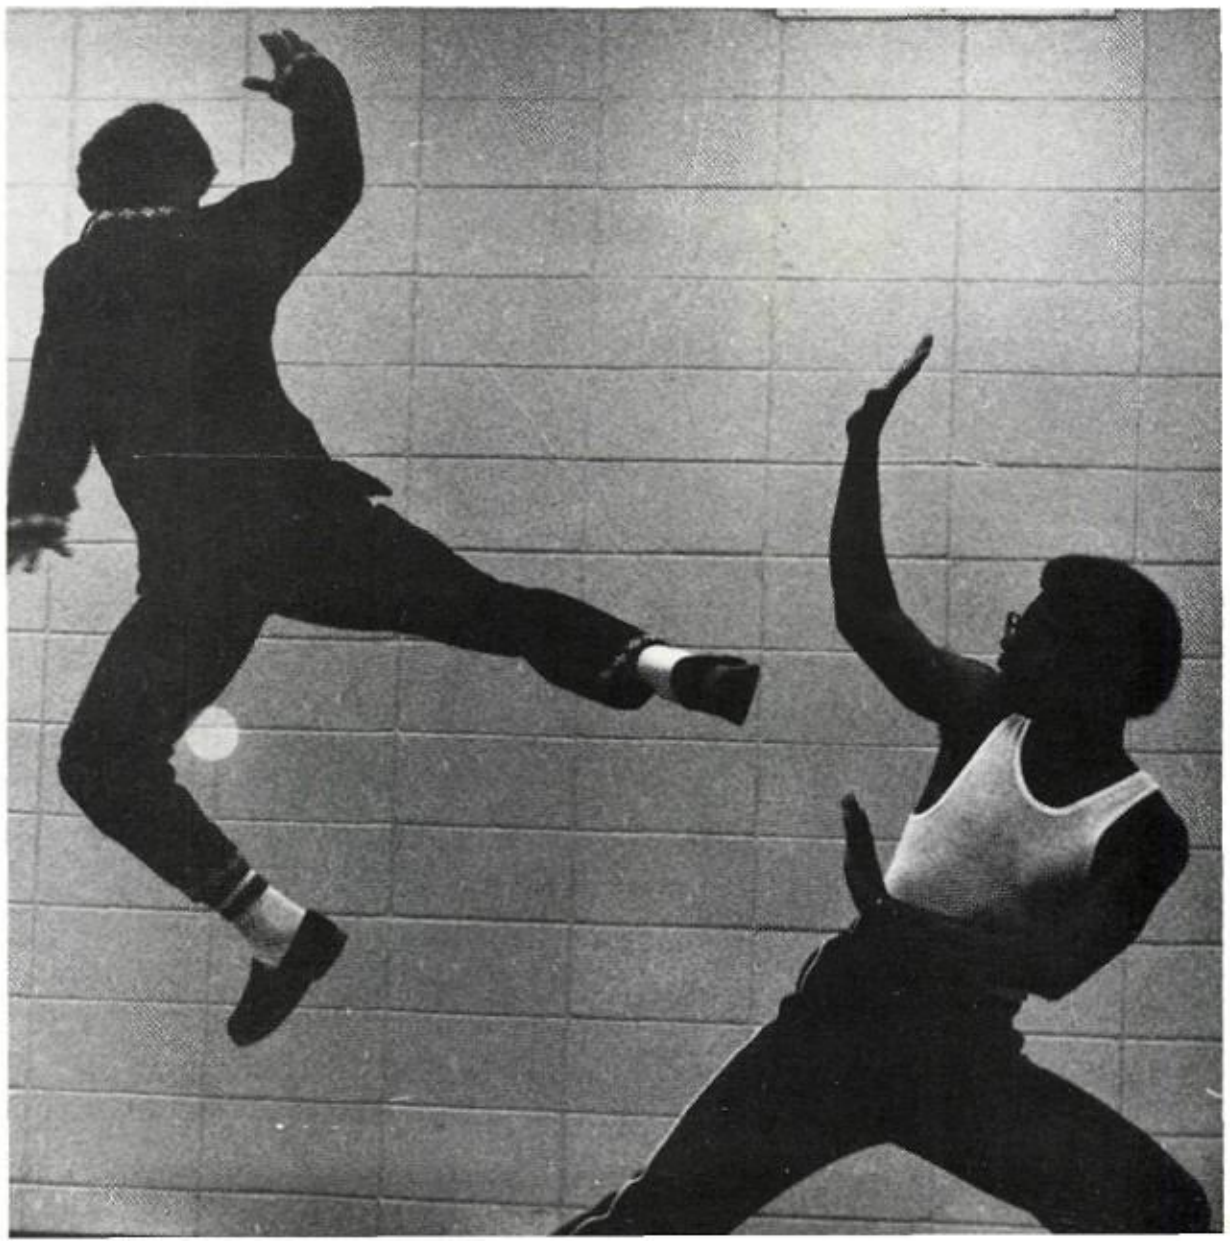
# MARTIAL ARTS

Members — Jeff Henderson, Charles Perry, Wayne Jackson, Curtis Pugh, Marvin Chaney, Mike Goff.





Martial Arts is a form of self protection which includes judo, karate, and chinese kick-boxing. The Martial Arts Club, a new organization at Peabody Magnet School, meets to learn more about this ancient oriental art. Sessions begin with a period of limbering up, and lead to practicing methods of fighting that will deter an opponent quickly and effectively, without "flowery" or wasted motions.

# SPECIAL CLASSES

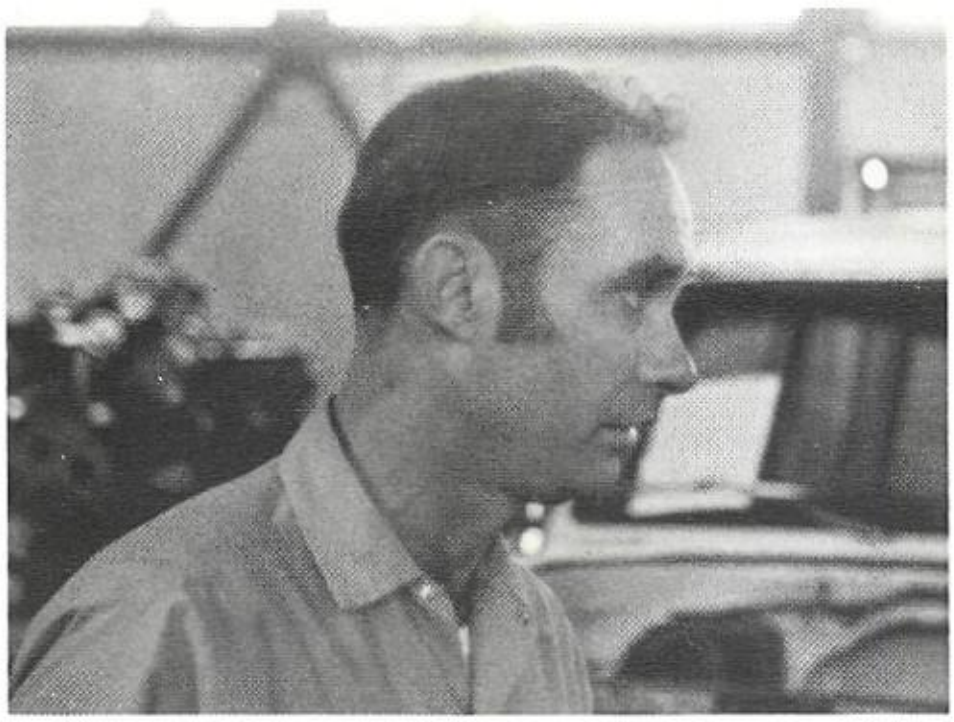
Although Peabody Magnet is a school known for its academic curriculum, threre is another side to P.M.S. that makes it special. The vocational curriculum consists of classes that prepare students for a career in a wide variety of vocations. The classes include auto mechanics, aerospace, horticulture, nursing, welding, and carpentry. Most of the classes are taught at the Peabody Extended Campus, located near the Alexandria Mall.

The Fine Arts Department also contains a special class in its program. In the dance class, taught by Mrs. Jeannie Schul-Pfeiffer, students learn the art of modern and classical dance.

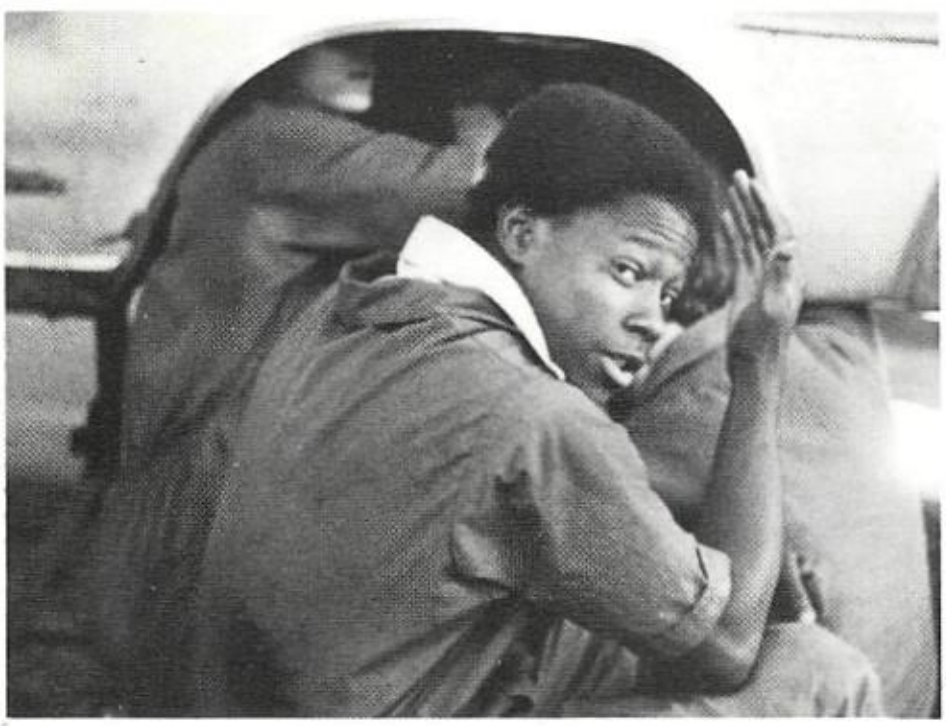
Of course, we on the Yearbook Staff feel all classes are special, but the following pages show what we consider to be the classes that make Peabody Magnet School unique.

Okay, where'd you put the wheel . . .

# AUTO MECHANICS



I hope they haven't gotten into anything . . .



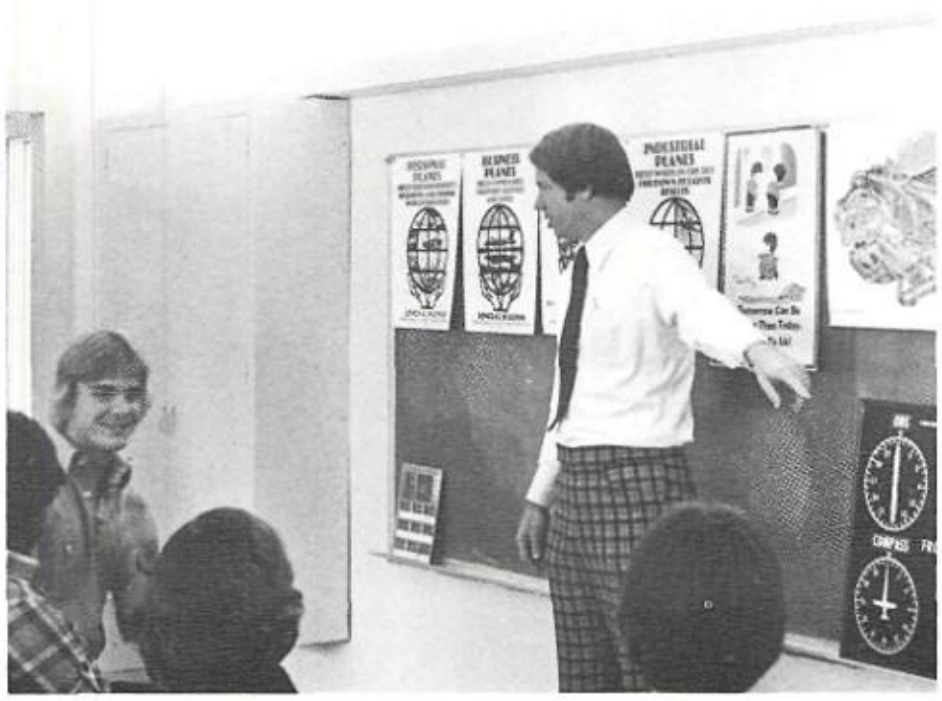
I tried to tell 'em!

Now add a dash of salt, a cup of flour . . .

When the big hand is on the two and the little . . .

I'm your friendly neighborhood aerospace teacher!

# AEROSPACE



You! In the corner!

This is your common, everyday dartboard.

Today we learn about . . .

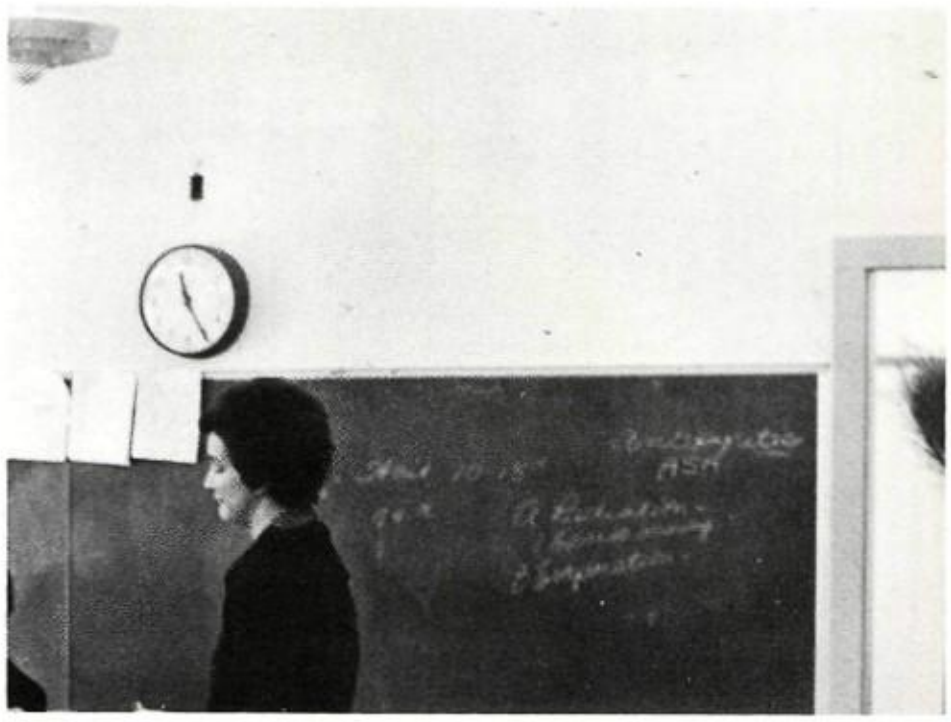
Okay men. At 0700 we take over the earth!

# HORTICULTURE

Horticulturists at work.

I really don't know why I'm doing this.

Just shut up and act sick!



Okay class, one more time . . .

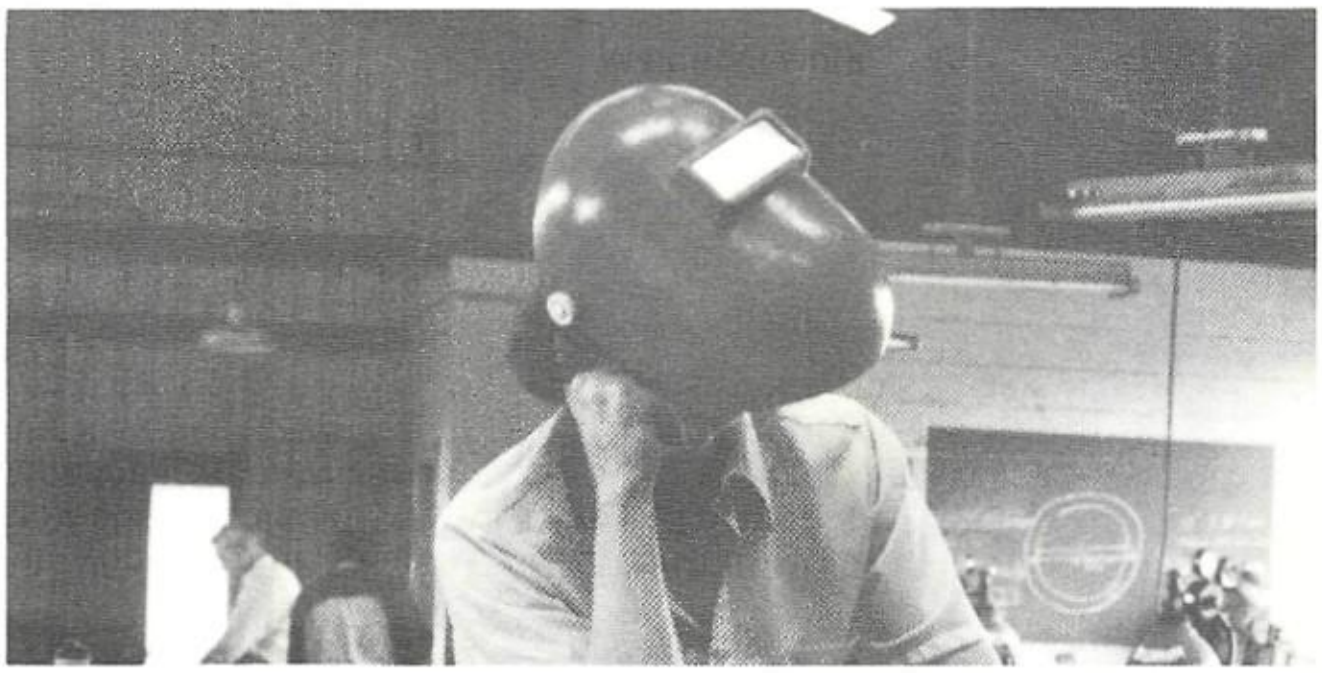
# NURSING

Do I look bored, or do I look bored.

What will they think of next?

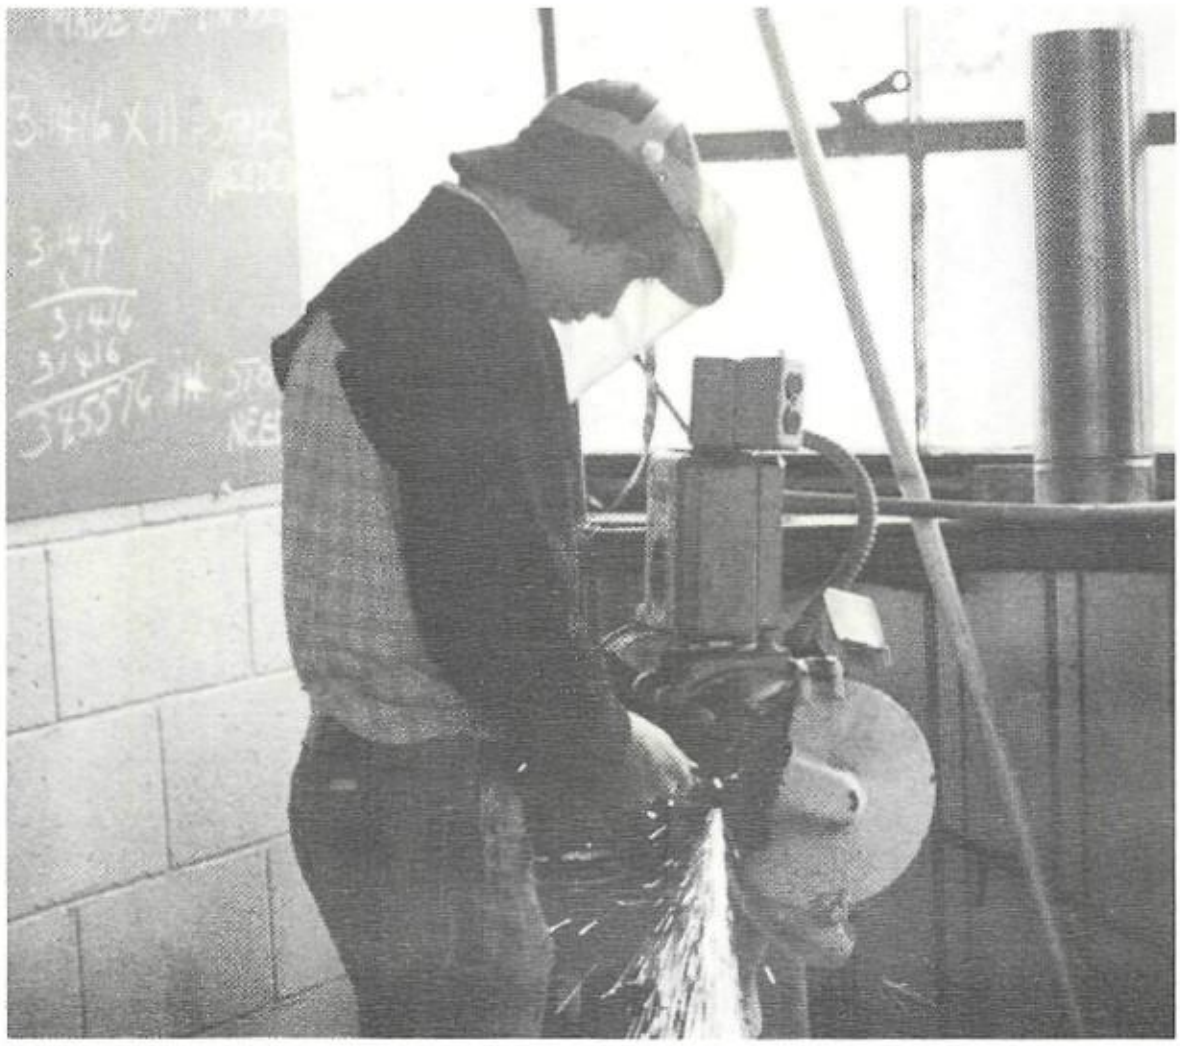
Wild and crazy guys

Smile! You're on Candid Camera!



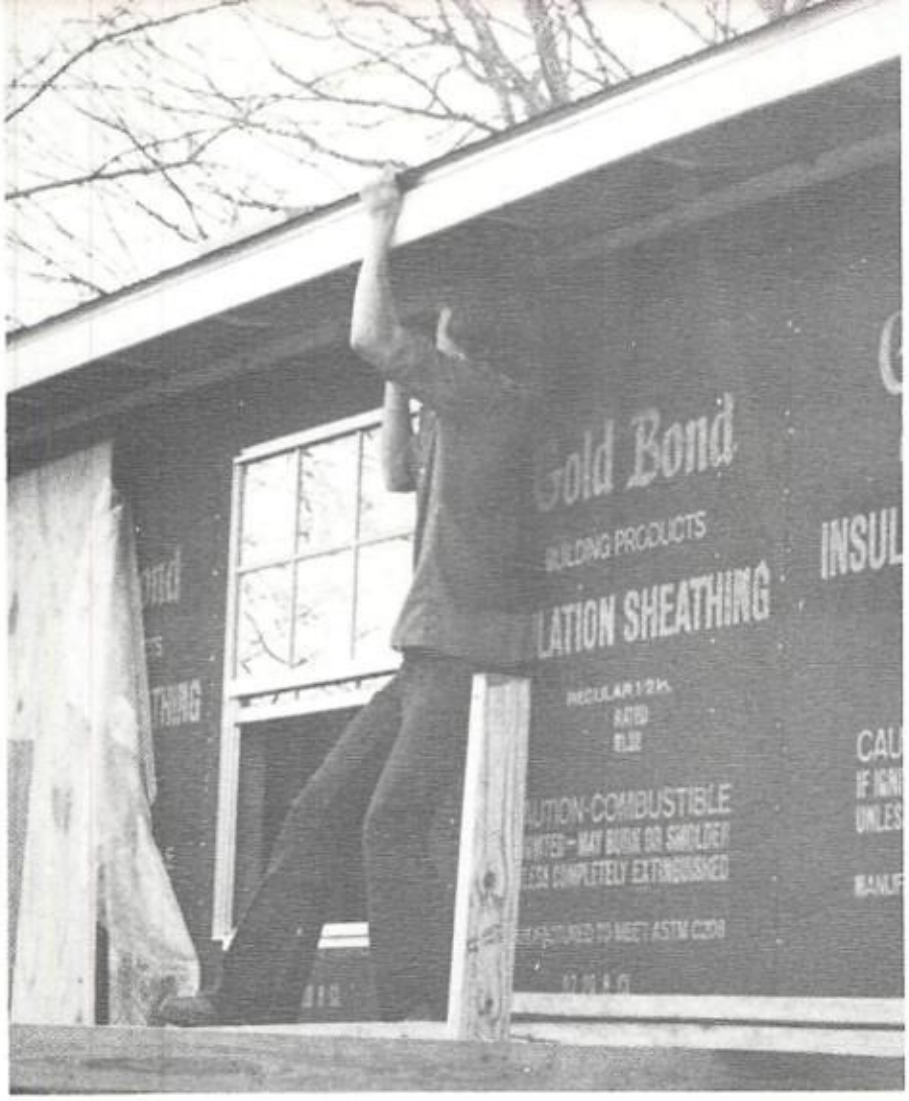
Z-Z-Z-Z-Z

# WELDING



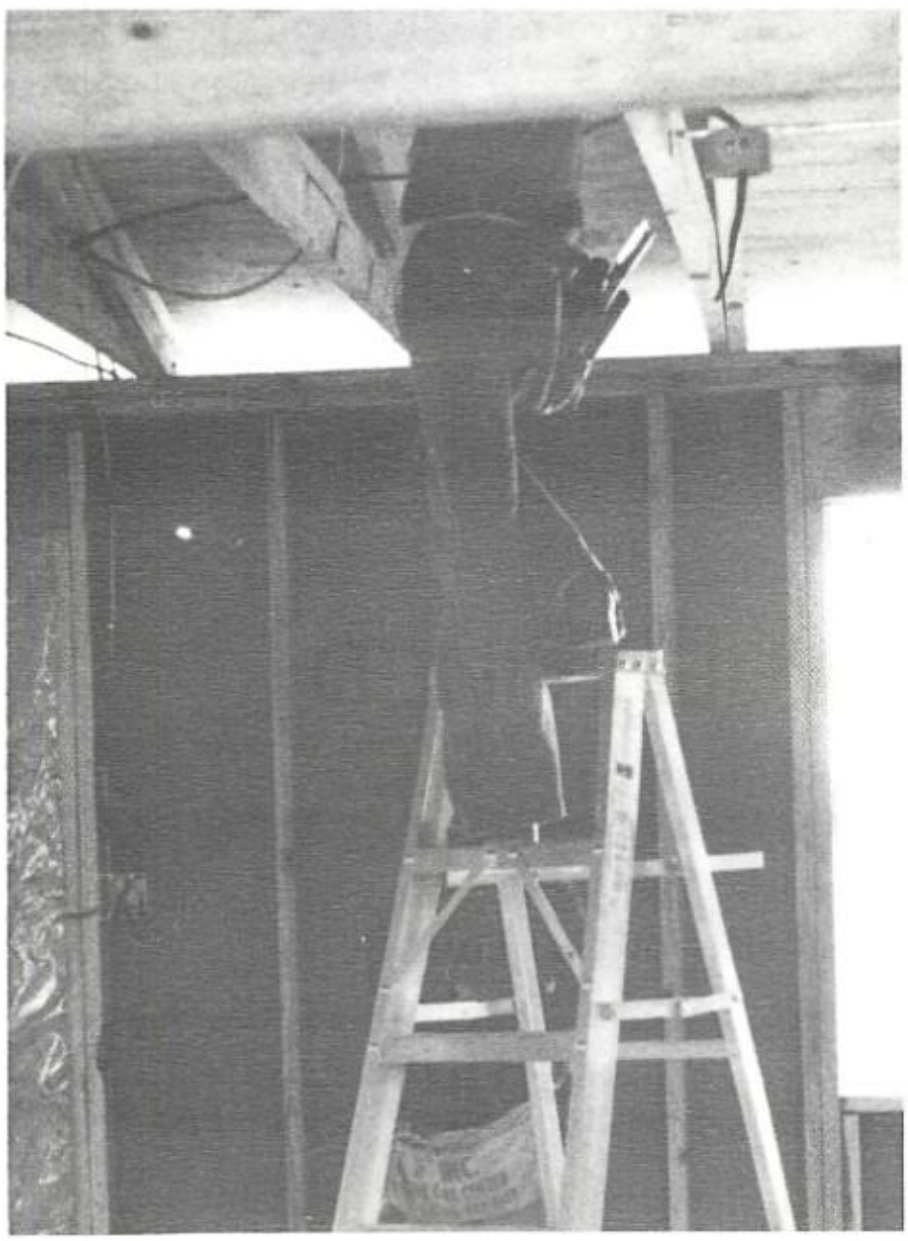
Welder at work

# CARPENTRY

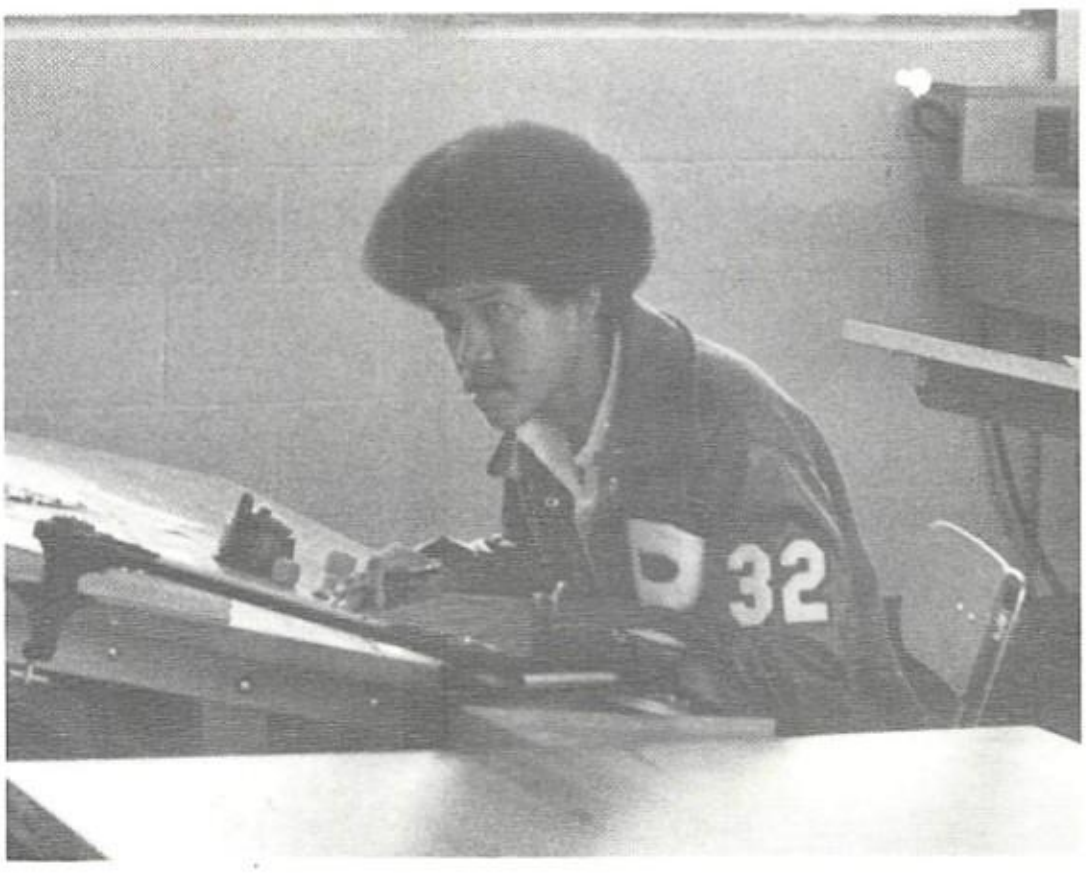


Just one more nail.

That line doesn't look straight.

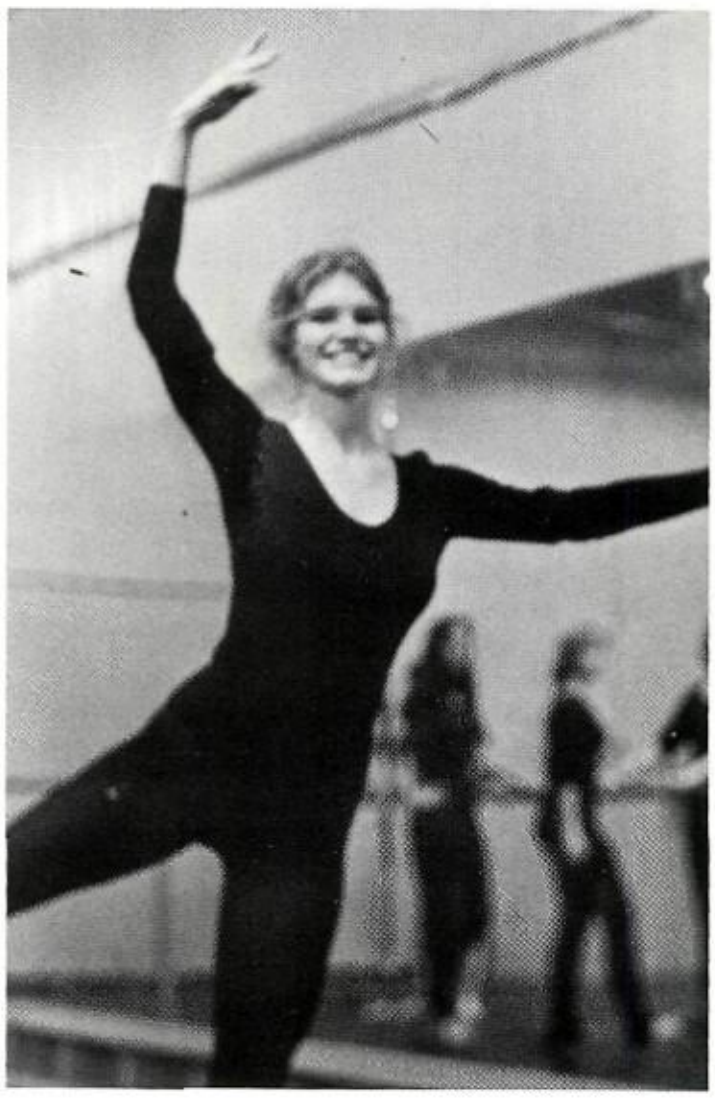


It's dark up here!



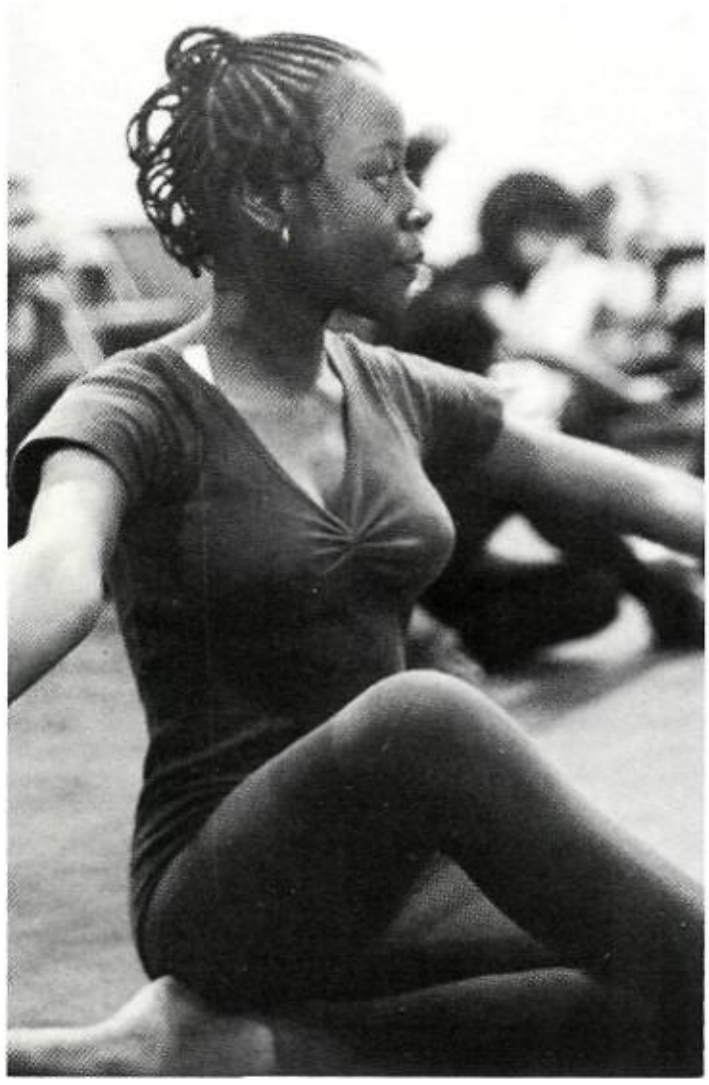
What! It has to have windows?

It's a bird, it's a plane, no, it's . . .

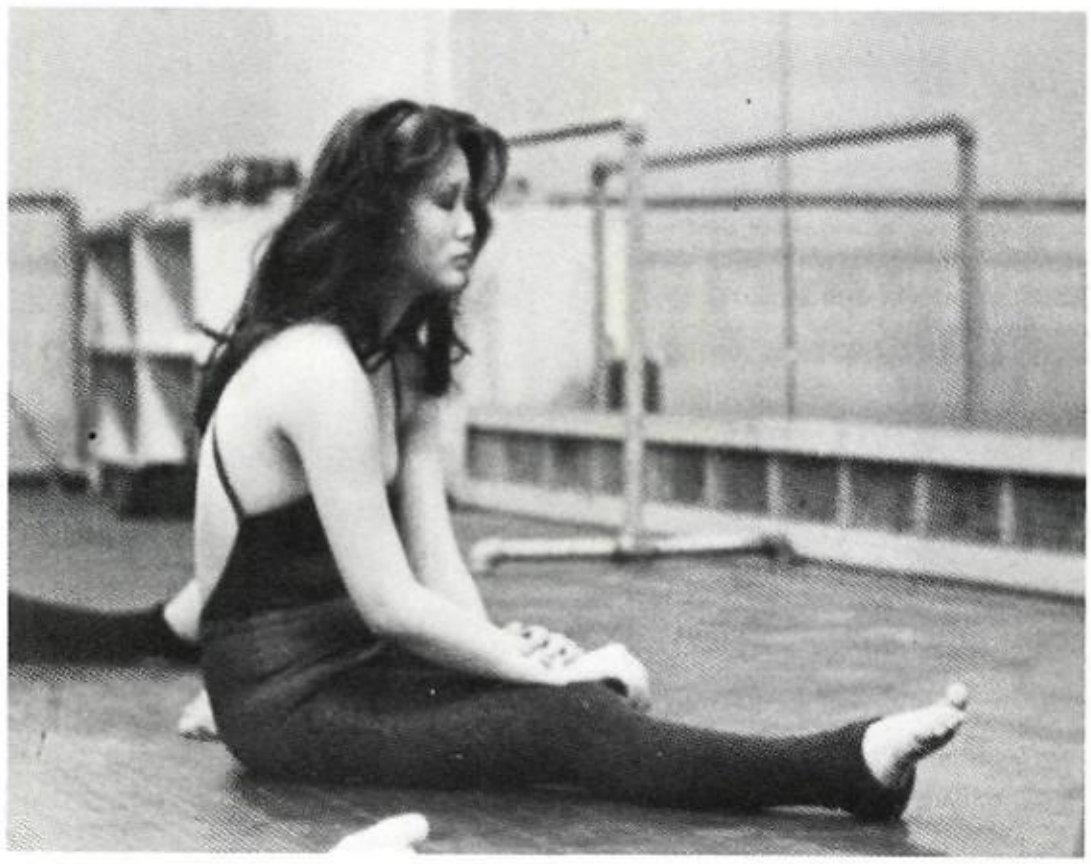


How does this look?

# MODERN DANCE

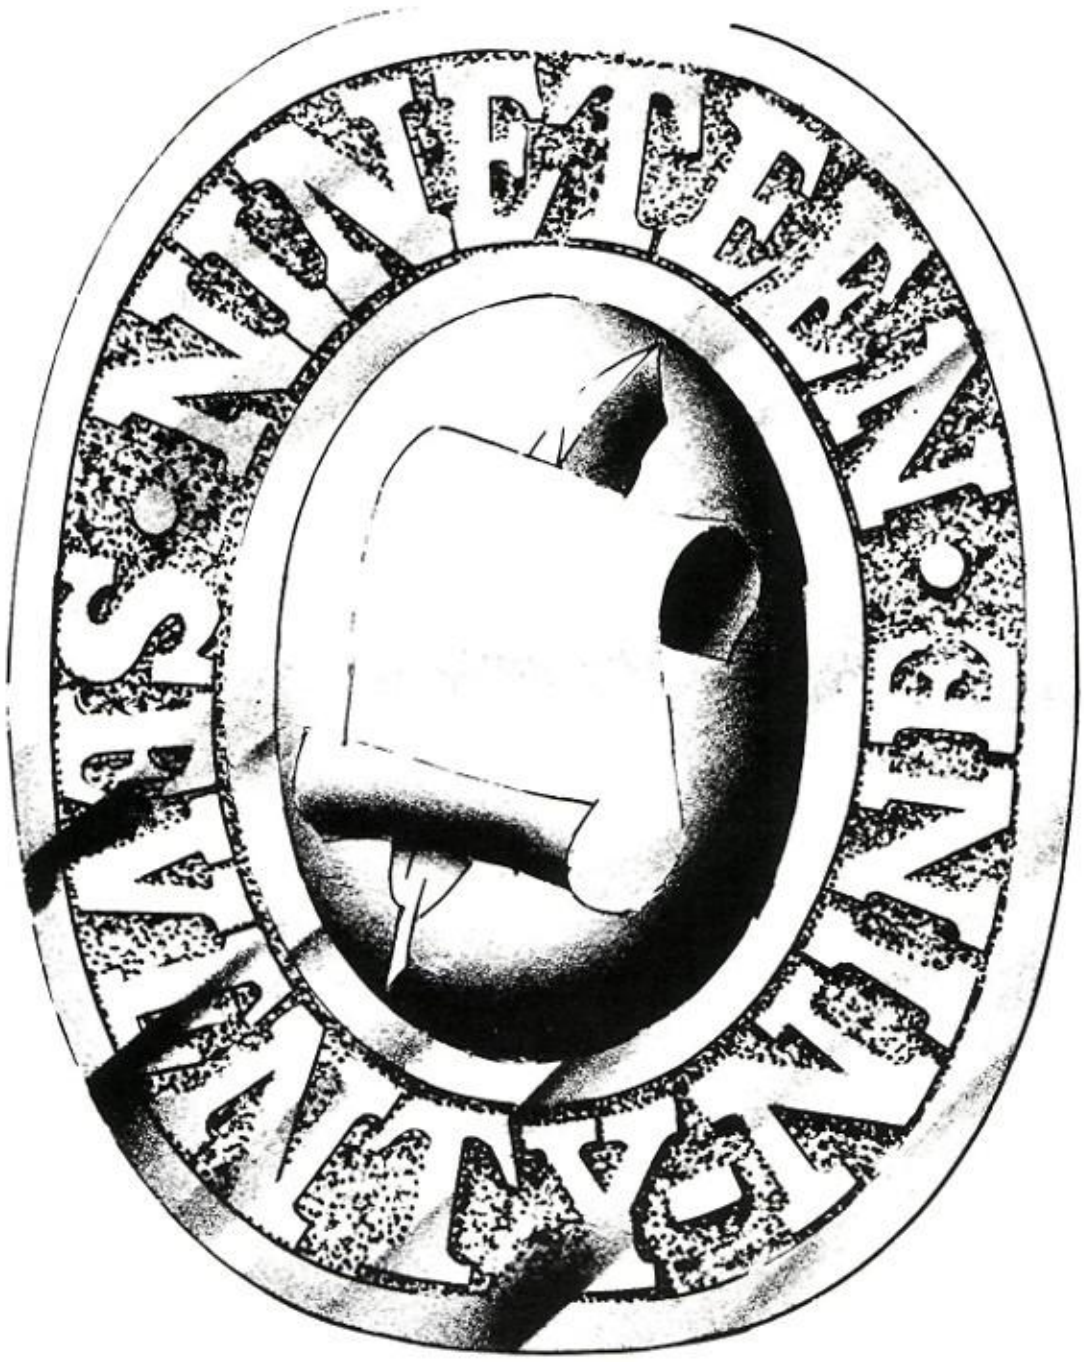


Not a picture NOW! I look terrible!



I'm so-o-o tired.

# ATHLETICS



# THE WARHORSES 1978-79 FOOTBALL TEAM

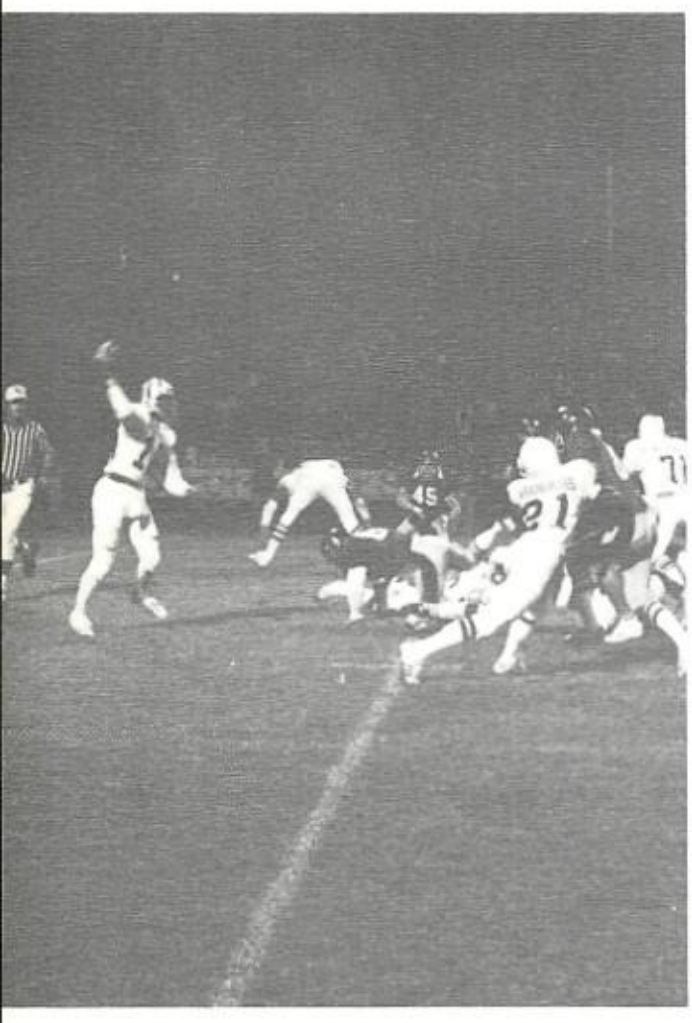
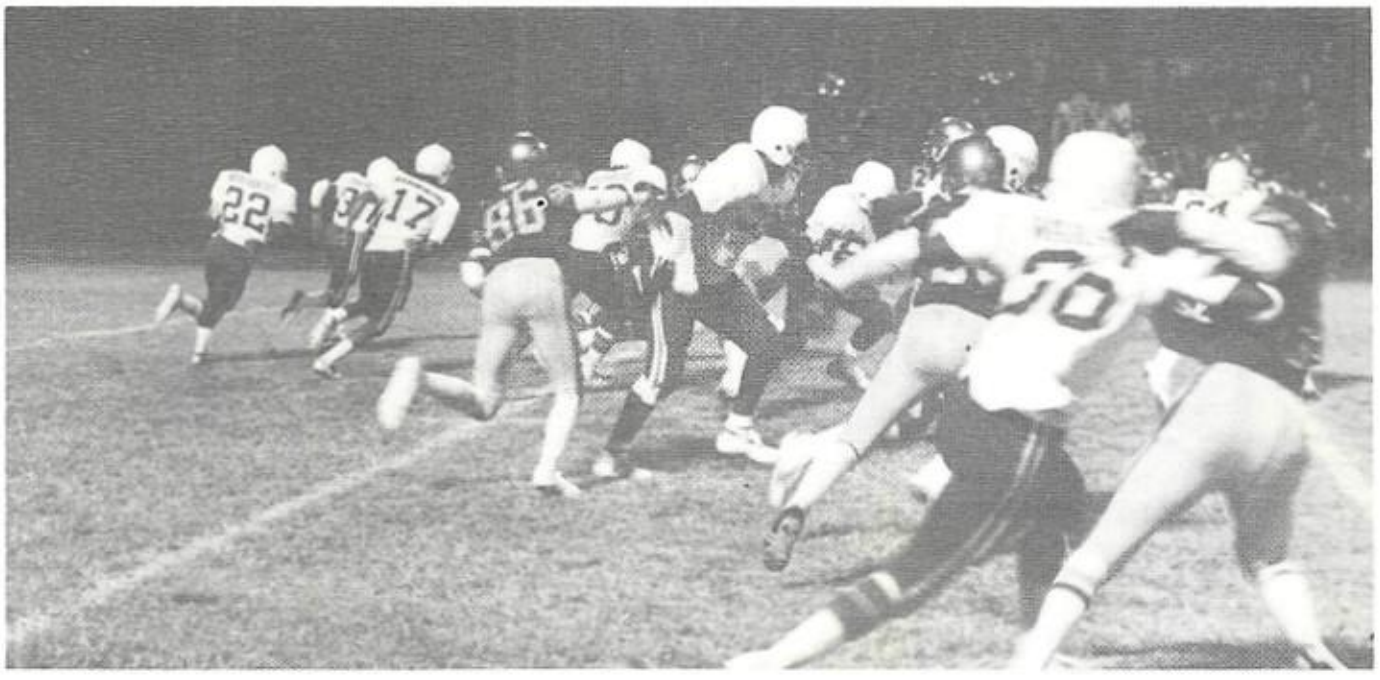
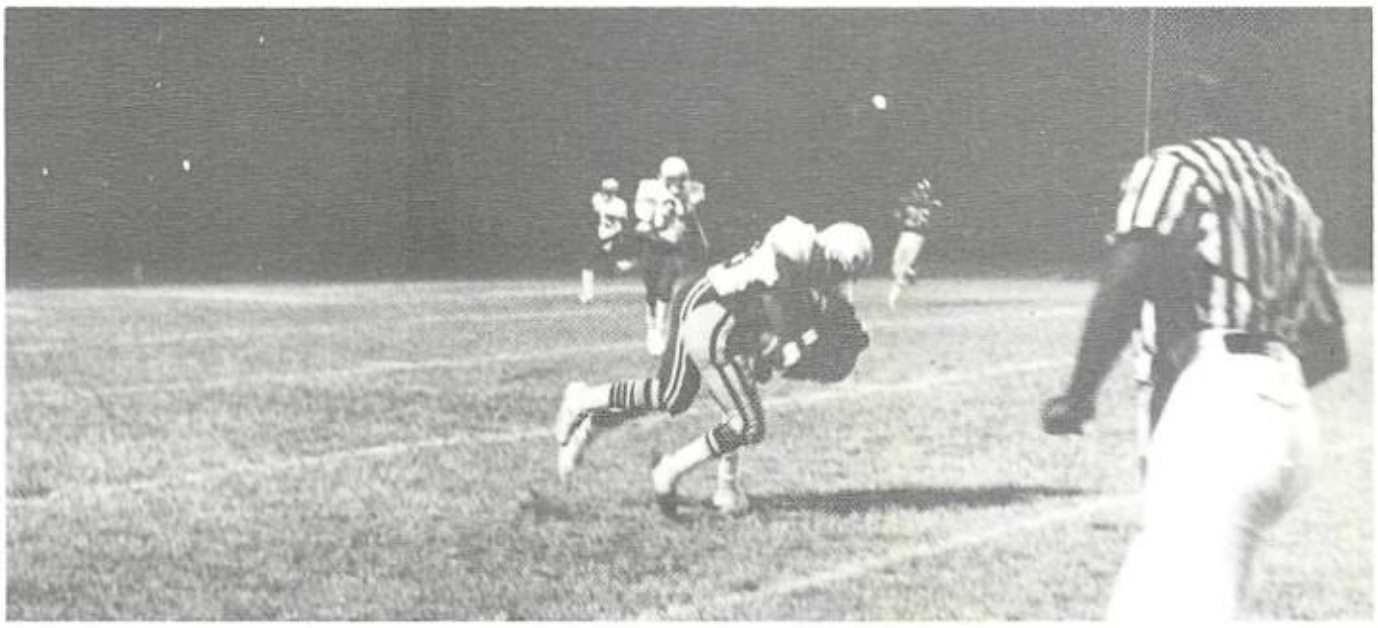
# WE WON SOME, AND



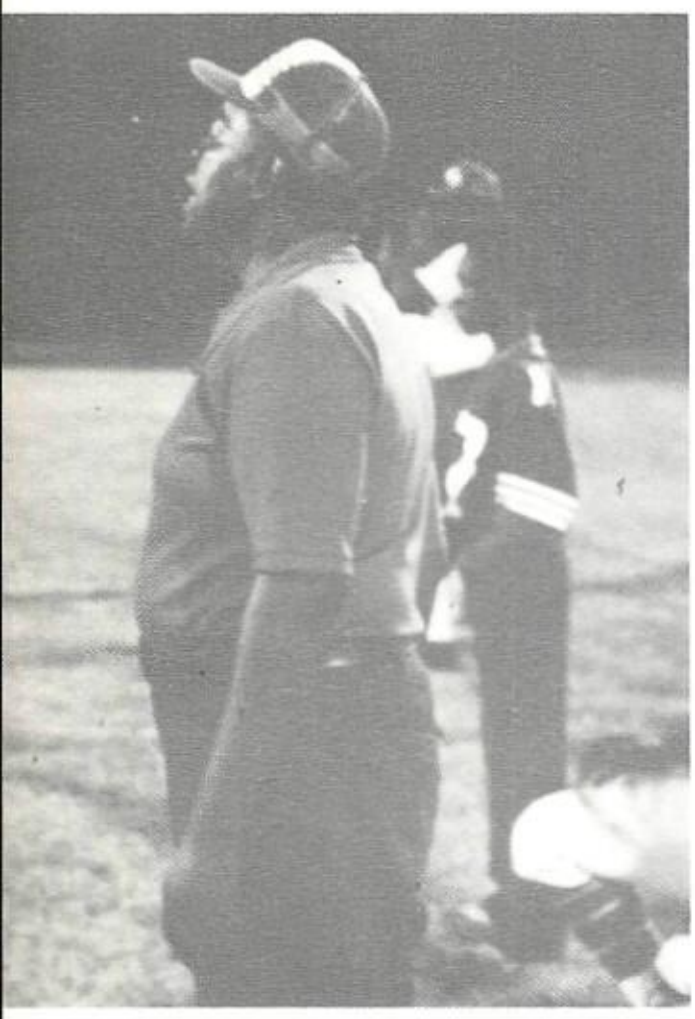
Will you look at that pass!



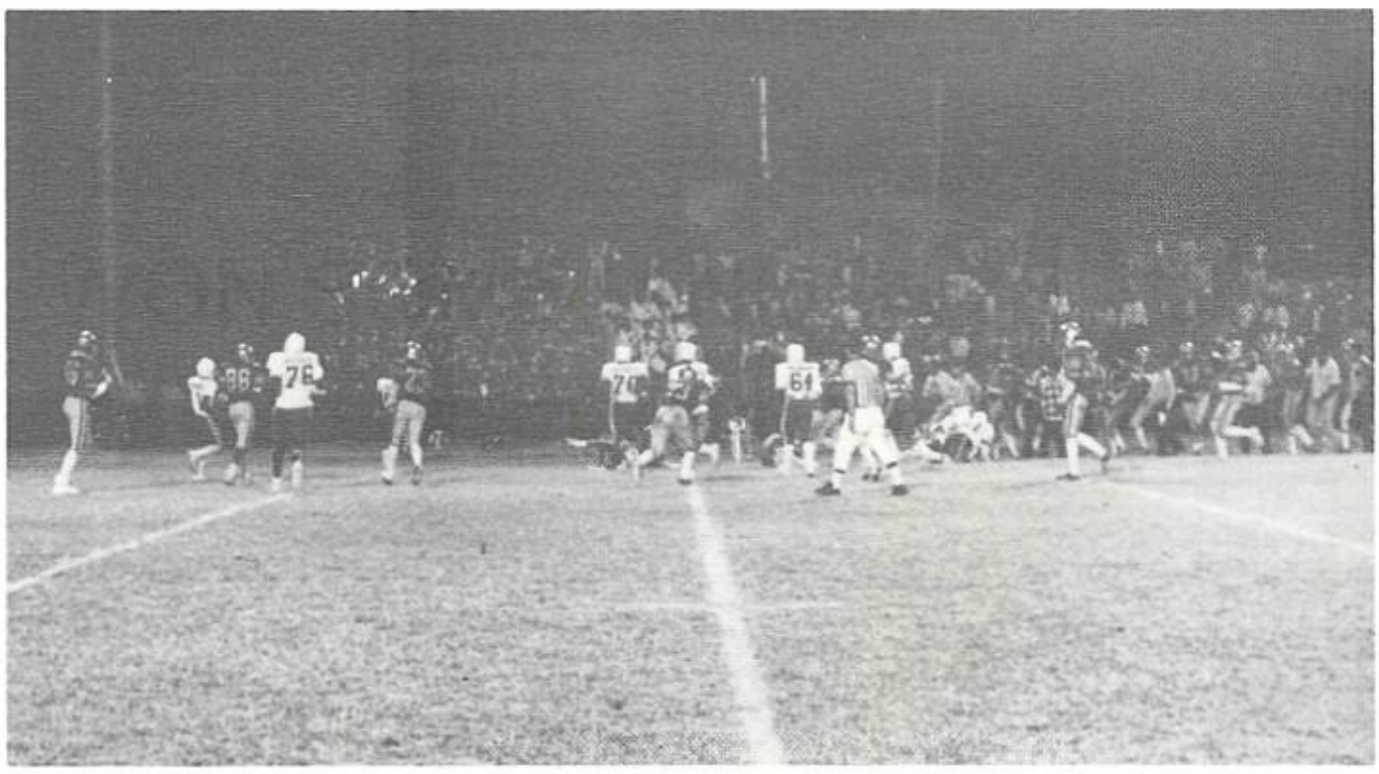
Peabody takes the ball and runs!



You can't get very far from a warhorse!



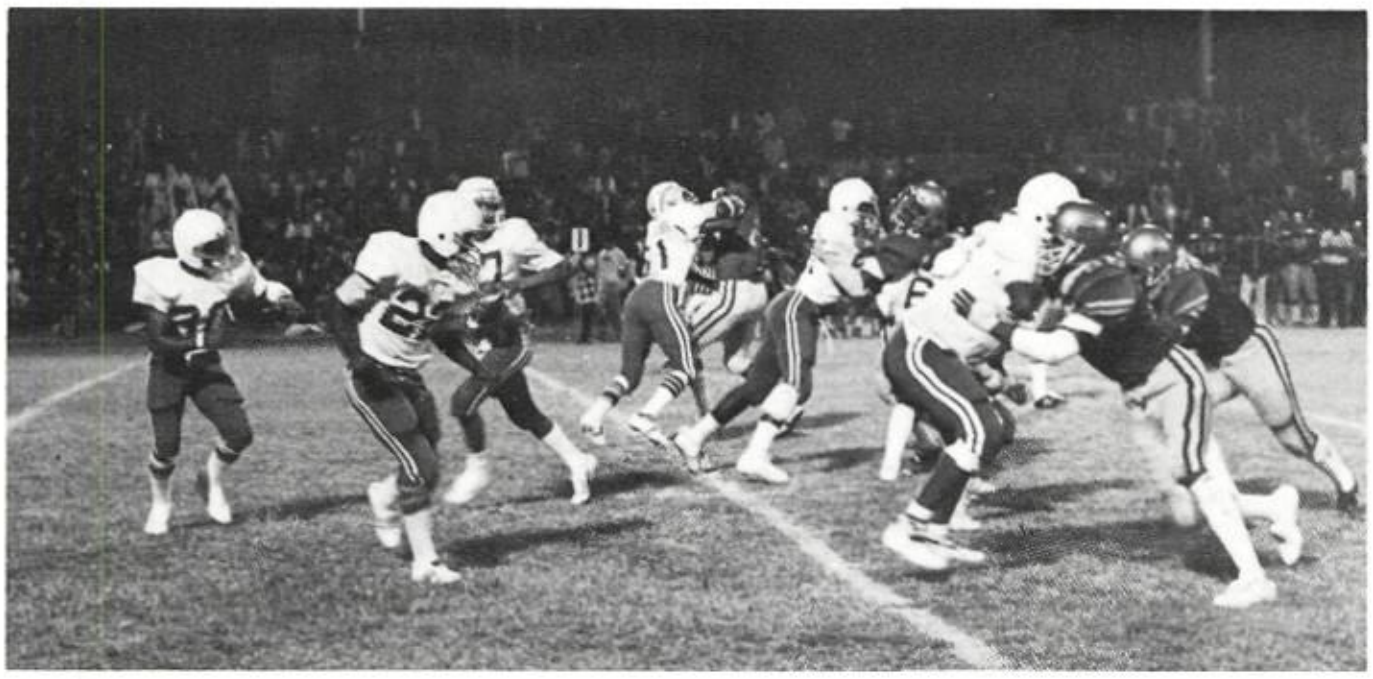
Coach yells from the sideline.



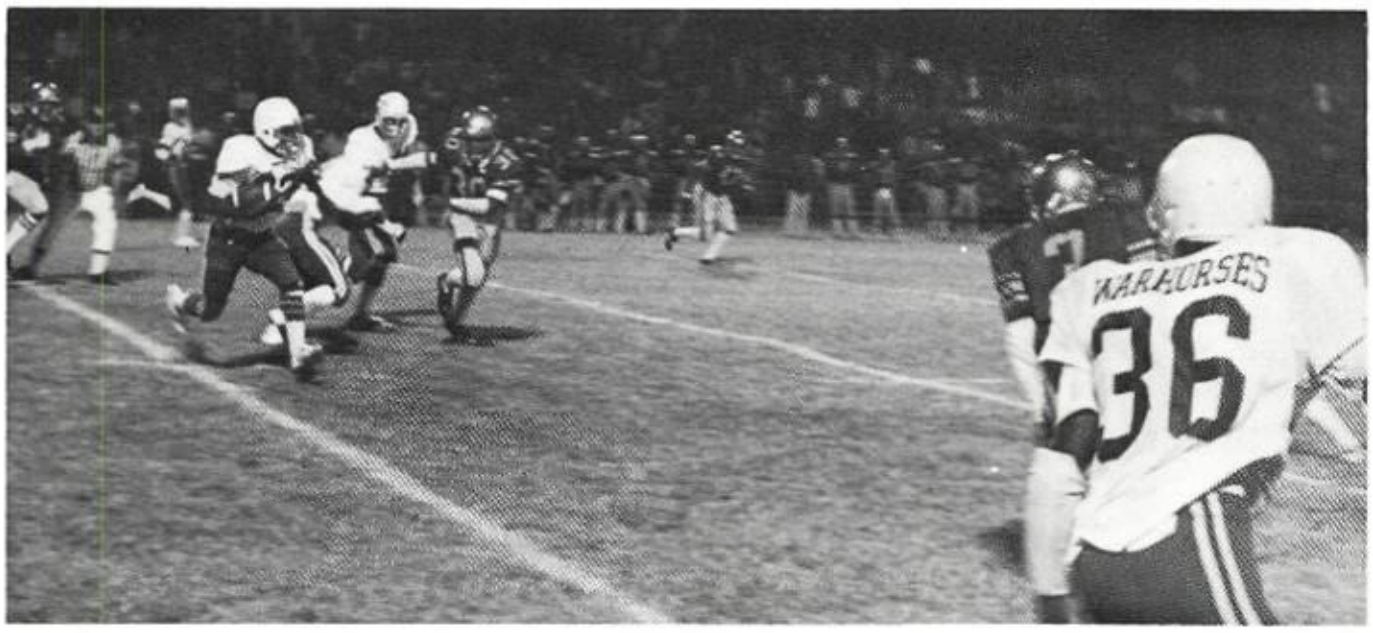
A long view of the game.

# BUT THE FEELING STILL REMAINED . . .

# WE LOST SOME

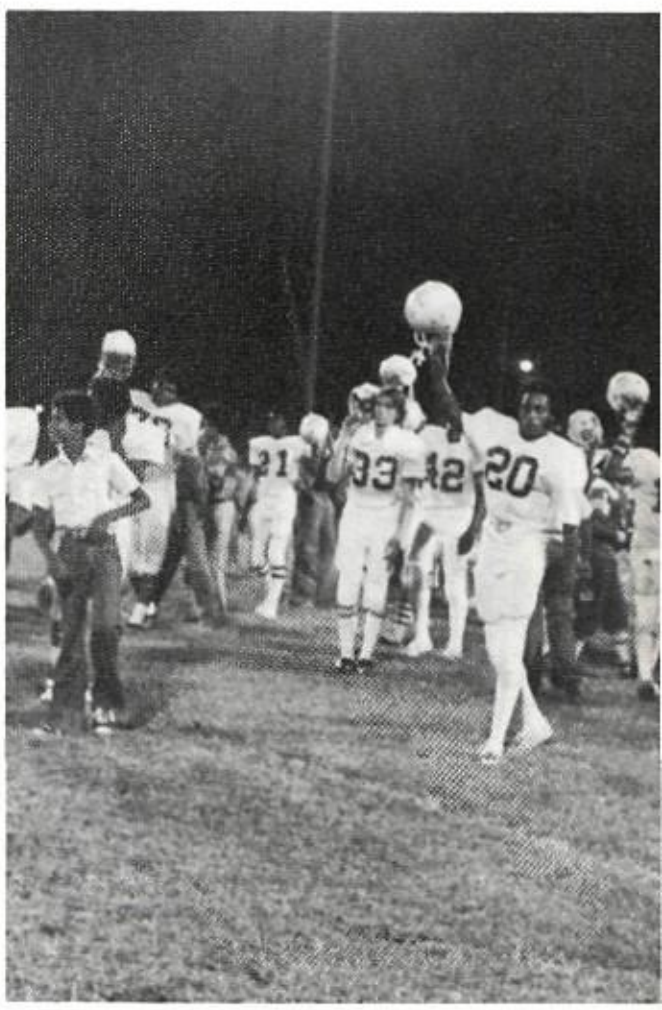


Struggling to cross the line.

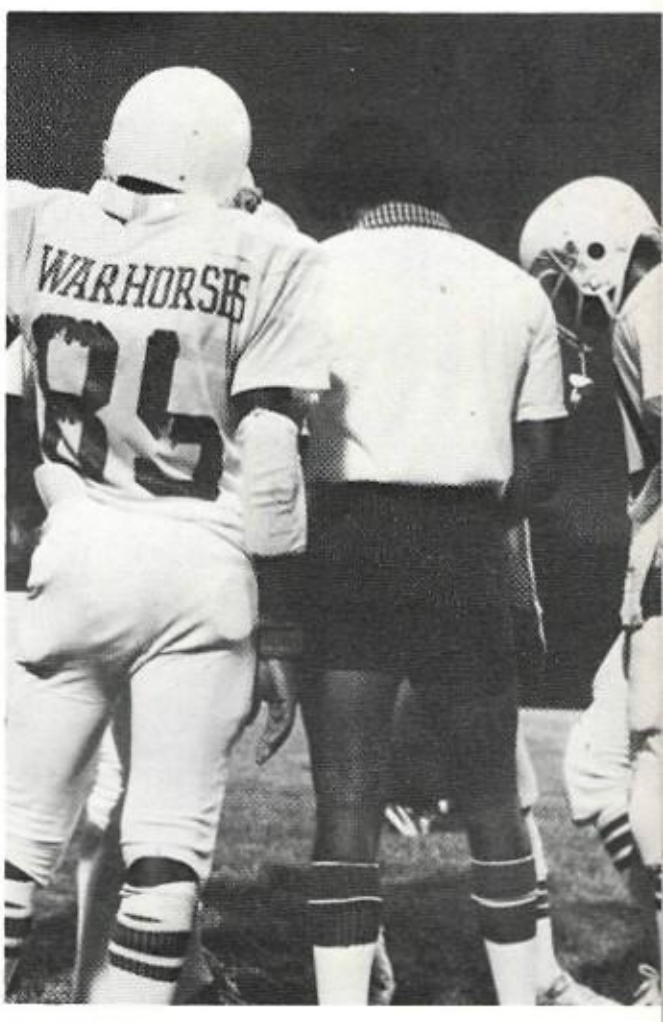


Gaining yardage fast.

Up, up and away the ball goes.



Oh the victory.



Sidelined for advice.

# THE PRIDE!
